Preface	xii
Acknowledgements	xiv
List of abbreviations	xvi
Abstract	xxi
Executive Summary	xxii
Background	xxii
The health systems context and achievement	xxii
Health systems reforms	xxvi
Health systems performance	xxvii
1 Introduction	1
Chapter summary	1
1.1 Geography and socio-demography	2
1.2 Economic context	5
1.3 Political context	7
1.4 Health status	9
2 Organization and governance	17
Chapter summary	17
2.1 Overview of the health system	18
2.2 Historical background	21
2.3 Organization	22
2.4 Decentralization and centralization	24
2.5 Planning	27
2.6 Intersectorality	29
2.7 Health information management	30
2.8 Regulation	35
2.9 Patient empowerment	46
3 Financing	51
Chapter summary	51
3.1 Health expenditure	52
3.2 Sources of revenue and financial flows	55

3.3	Overview of the statutory financing system	62
3.4	Out-of-pocket payments	71
3.5	Voluntary health insurance	73
3.6	Other financing	74
3.7	Payment mechanisms	75
4	Physical and human resources	86
	Chapter summary	86
4.1	Physical resources	87
4.2	Human resources	95
5	Provision of services	110
	Chapter summary	110
5.1	Public health	112
5.2	Patient pathways	115
5.3	Primary/ ambulatory care	116
5.4	Specialized ambulatory care/inpatient care	117
5.5	Emergency care	124
5.6	Pharmaceutical care	131
5.7	Rehabilitation/intermediate care	138
5.8	Long-term care and informal care	146
5.9	Palliative care	153
5.10	Mental health care	156
5.11	Dental care	160
5.12	Complementary and alternative medicine	164
6	Principle health reforms	170
	Chapter summary	170
6.1	Analysis of recent reforms	171
6.2	Future developments	182
7	Assessment of the health system	186
	Chapter summary	186
7.1	Objectives of the health system	187
7.2	Financial protection and equity in financing	189
7.3	User experience and equity of access	194
7.4	Health outcomes, health service outcomes and quality of care	200
7.5	Health system efficiency	217
7.6	Transparency and accountability	225
8	Conclusions	227
8.1	Health achievement and remaining challenges	227
8.2	Good access in rural areas, but weak primary health care systems in urban areas	227

8.3	Significant increase in public spending and fiscal space	228
8.4	Multiple actors, complex relations and MOPH role as national health authority	229
8.5	From equity focus to health in all policies	230
8.6	Lessons learnt	232
8.7	Remaining challenges	233
9	Appendices	236
9.1	References	236
9.2	Useful websites	260
9.3	HiT methodology and production process	261
9.4	About the authors	263

List of Figures

Figure 1.1	Map of Thailand	3
Figure 1.2	Life expectancy at birth, adult mortality male and female	10
Figure 1.3	Infectious and noninfectious mortality rates in Thailand, 1958–2009: (A) Infectious disease-related mortality rates, major events and key public health interventions; (B) Comparison of infectious disease-related mortality rates with noninfectious disease-related mortality rates	13
Figure 1.4	Adult smoking prevalence by gender, 1991–2013	15
Figure 2.1	Linkages of governance mechanisms in the national health system	20
Figure 2.2	Evolution of the Ministry of Public Health	22
Figure 2.3	Organizational structure and interlinkages between MOPH and NHSO	23
Figure 2.4	Local government budget: fiscal year 2000–2012	26
Figure 2.5	Progress of health-care decentralization and related policy interventions	27
Figure 2.6	Relationship of concept, vision and strategies for health and national development	28
Figure 3.1	Health financing and service provision in Thailand after achieving universal coverage in 2002	56
Figure 3.2	Scheme beneficiaries by income quintile, 2004	65
Figure 3.3	Flows of funds to pooling agencies	69
Figure 3.4	CSMBS expenditure, 1990–2011, nominal price	77

Figure 4.1	Capital investment budget and percentage of total health budget, 2002–2010.....	89
Figure 4.2	Proportion of hospital beds by agency, 1973–2008.....	90
Figure 4.3	Bed occupancy rate by agency, 2006–2009.....	90
Figure 4.4	National average length of stay, all hospitals, 1995–2009.....	91
Figure 4.5	Hospital beds per 10 000 population, Thailand and six WHO regions and global average, 2009.....	91
Figure 4.6	Hospital beds per 10 000 population, countries in WHO South-East Asia Region 2009.....	92
Figure 4.7	The proportions of generalist and specialist doctors, 1971–2009.....	98
Figure 4.8	Trends of production of generalist and specialist doctors, 1990–2010.....	98
Figure 4.9	Number of dental nurses in health centres.....	99
Figure 4.10	Doctors, dentists, pharmacists and professional nurses, 1979–2009.....	101
Figure 4.11	Medical graduates gaining licences from public and private domestic and foreign medical schools, 1996 and 2010, Thailand.....	104
Figure 5.1	Organization of public health services in Thailand.....	113
Figure 5.2	Utilization rate of open-heart surgery of UCS members by province, 2004–2007.....	122
Figure 5.3	Number of hospitals under the UCS being accredited under the Hospital Accreditation programme 2003–2011.....	122
Figure 5.4	Effectiveness of treatment of patients with chronic conditions, 2003–2004 and 2008–2009.....	123
Figure 5.5	Hospital standardized mortality rate, 2008–2010.....	123
Figure 5.6	Number of cases receiving prehospital services, 2005–2011.....	126
Figure 5.7	Thailand's emergency medical operation.....	127
Figure 5.8	Numbers of pharmaceutical manufacturers and importers, 1996–2011.....	132
Figure 5.9	Value of pharmaceuticals manufactured and imported, 1987–2010.....	133
Figure 5.10	Number of pharmacies, 1996–2011.....	134

Figure 5.11	Average numbers of rehabilitation personnel by type of hospital, 2004–2007	139
Figure 5.12	Number and percentage of UCS-registered persons with disabilities, 2011	142
Figure 5.13	Rehabilitation service use as persons and visits by region, 2010 and 2011	143
Figure 5.14	Number of visits by type of rehabilitation services, 2010 and 2011	144
Figure 5.15	Number of rehabilitation patients, visits and expenditure by type of hospital, 2011	144
Figure 5.16	Percentage accessibility to dental care services, 2009 and 2011	161
Figure 5.17	Percentage of dental care institutes and service types, 2007.....	162
Figure 5.18	Accessibility to dental care by income quintile, 2007.....	163
Figure 6.1	Coverage of health insurance, 1991–2003.....	175
Figure 7.1	Population coverage by different health insurance schemes and the remaining uninsured, 1991–2009	188
Figure 7.2	Public financing of health as a ratio of GDP, Thailand and selected regions, 1995–2006	189
Figure 7.3	Share of total health expenditure by private and public financing, 1994–2010	190
Figure 7.4	Direct payment for health as percentage of total household expenditure, overall and by richest and poorest expenditure deciles, 1996–2010	191
Figure 7.5	Reduction in health impoverished households in various employment sectors before and after UHC achievement, 1996–2009.....	192
Figure 7.6	Progressivity of major sources of health financing as measured by Kakwani Index, 2000–2007, reflecting the relative contributions by three sources of health financing.....	193
Figure 7.7	Total numbers of outpatient visits and inpatient admissions against number of UCS members, 2003–2010	194
Figure 7.8A	Uptake of UCS entitlement when using outpatient services, percentage of UCS members using outpatient services at different levels of service, 2003–2009.....	195

Figure 7.8B	Uptake of UCS entitlement when using inpatient services, percentage of UCS members using inpatient services at different levels of service, 2003–2009	196
Figure 7.9	Overall rating of satisfaction with UCS (in 1–10 Likert scale, mean and 95% confidence intervals), 2003–2010	197
Figure 7.10	Distribution of health insurance members according to national quintiles of household asset index, 2003–2009	198
Figure 7.11	Proportions of outpatient visits and inpatient admissions, compared with number of beneficiaries of UCS by the poorest and richest quintiles of household asset index, 2003–2009	199
Figure 7.12	Proportions of government subsidy for out- and inpatient services, compared with number of beneficiaries of UCS by the poorest and richest quintiles of household asset index, 2003–2009	200
Figure 7.13	Maternal mortality in Thailand, global average and selected world regions, 1990–2011	201
Figure 7.14	Child mortality in Thailand, global average and selected world regions, 1990–2011	202
Figure 7.15A	Adult female mortality in Thailand and selected world regions, 1970–2010	203
Figure 7.15B	Adult male mortality in Thailand and selected world regions, 1970–2010	203
Figure 7.16	Mortality amenable to health care per 100 000 population, overall and by insurance scheme, 2005–2011	204
Figure 7.17A	Population pyramid of CSMBS members, 2005–2011.....	205
Figure 7.17B	Population pyramid of SHI members, 2005–2011.....	206
Figure 7.17C	Population pyramid of UCS members, 2005–2011.....	206
Figure 7.18A	Incidence of breast cancer in Thailand, global average and selected world regions, per 100 000 women, 1980–2010	207
Figure 7.18B	Incidence of cervical cancer in Thailand, global average and selected world regions, per 100 000 women, 1980–2010	208

Figure 7.19A	Overall survival of UCS patients admitted with breast cancer, 2006–2011	209
Figure 7.19B	Overall survival of UCS patients admitted with cervical cancer, 2006–2011	209
Figure 7.19C	Overall survival of UCS patients admitted with colorectal cancer, 2006–2011	210
Figure 7.20	Achievement of universal access to child immunization in Thailand, 1982–2006	211
Figure 7.21	DTP immunization in Thailand and selected world regions, 1986–2006	212
Figure 7.22	Hospital admissions with conditions deemed controllable by ambulatory care, 2005–2010	213
Figure 7.23	Mortality of hospital admissions with conditions amenable to health care, overall and by insurance scheme, 2005–2011	214
Figure 7.24	Deaths from AMI on hospital arrival, at discharge and within 30 days for UCS patients, 2005–2011	215
Figure 7.25	Deaths from strokes on hospital arrival, at discharge and within 30 days for UCS patients, 2005–2011	215
Figure 7.26	Under-five mortality and per-capita health-care expenditure in Thailand and in other low- and middle-income countries, 2005	218
Figure 7.27	Infant, under-five, maternal and adult mortalities and per-capita GDP, Thailand 1980–2008	219
Figure 7.28	Total health-care expenditures of CSMBS by types of service and annual growth, 1988–2011	220
Figure 7.29	Top 30 drug classes for outpatient expenditure of CSMBS in number of prescriptions and amount reimbursed by essential drug status, 2012	221
Figure 7.30	Proportion of essential drugs in major drug classes prescribed for outpatients in district and provincial hospitals by health insurance scheme, 2010	222
Figure 7.31	Average reimbursed drug expenditure and use of essential drugs in 33 hospitals, July 2011 to March 2012	223

List of Tables

Table 1.1	Trends in population/demographic indicators, selected years	4
Table 1.2	Macroeconomic indicators, selected years	6
Table 1.3	Mortality and health indicators, selected years	10
Table 1.4	Main causes of death, 1980–2005, selected years (age-standardized death rates per 100 000 population)	11
Table 1.5	Top ten causes of disability-adjusted life year (DALY) loss, 2004, Thailand	14
Table 1.6	Maternal, child and adolescent health indicators, selected years	15
Table 2.1	Characteristics of governance and management structures of three public health insurance schemes	36
Table 2.2	Benefit packages of three public health insurance schemes	37
Table 3.1	Total health expenditure and selected indicators on health spending, 1994–2012, current year prices	52
Table 3.2	Health-care spending profile, percentage of total health expenditure, 1994 to 2012	54
Table 3.3	Health-care spending by source of fund, percentage of total health expenditure, 1994 to 2012 (selected years)	55
Table 3.4	Key national health account parameters on GGHE, 1994–2010	57
Table 3.5	Structure of government revenue, 1994 and 2007	59
Table 3.6	Progressive tax rates of Thai personal income tax	60
