CHAPTER 1

Evidence-Based Healthcare: Using Research in Practice 1

Introduction 2
Role of Research in the Evolution of Healthcare Professions 3
History of Healthcare Research and EBP 4
Evidence-Based Bridge Theory 5
Evidence-Based Models 5
Questions for Patient Care 8
Where to Find Evidence for Practice 9
Developing Clinical Questions for Real-World Practice 12
Published Abstract: What Would you Conclude? 22
Systematic Reviews in EBP 23
Summary 25

CHAPTER 2

The Research Process: Components and Language of Research Reports 27

Introduction 28
The Language of Research 29
Components of Published Research Reports 30
The Research Process and the Nursing Process 40
Research Reports and the Research Process 46
Summary of the Research Process Contrasted to the Research Report 49
Critically Reading Research for Practice 50
Published Report—What did you Conclude? 51
Summary 53

CHAPTER 3

Discussions and Conclusions 55

The End of a Research Report—Discussions and Conclusions 57
Discussions 57
Conclusions 62
Common Errors in Research Reports 65
Critically Reading Discussion and Conclusion Sections of Reports 66
Published Reports—What would you Conclude? 67

CHAPTER 4

Descriptive Results 69

Differentiating Description from Inference 70
Understanding the Language of Results Sections 72
Connecting Results that Describe Conclusions 84
Common Errors in the Reports of Descriptive Results 84
Critically Reading Results Sections of Research Reports for use in Evidence-Based Healthcare Practice 85
Published Report—What would you Conclude? 86

CHAPTER 5

Inferential Results 89

The Purpose of Inferential Statistics 90
Probability and Significance 92
Parametric and Nonparametric Statistics 94
Bivariate and Multivariate Tests 95
Hypothesis Testing 102
In-Class Study Data 103
Connecting Inferential Statistical Results to Conclusions 103
Common Errors in Results Sections 105

- Critically Reading the Results Section of a Report for use in Evidence-Based Nursing Practice—Revisited 106
- Published Report—What would you Conclude? 107

CHAPTER 6

Samples 109

- Samples versus Populations 110
- Sampling in Qualitative Research 113
- Sampling in Quantitative Research 116
- Differences in Qualitative and Quantitative Sampling 123
- Problems with the Sampling Process 124
- Problems with Sampling Outcomes 126
- Common Errors in Reports of Samples 128
- Connecting Sampling to the Study Results and Conclusions 128
- Critically Reading the Sample Section of Research Reports for use in Evidence-Based Nursing Practice 129
- Published Reports—Would you Change your Practice? 131

CHAPTER 7

Ethics 133

- Which Healthcare Team Member Actions are Research and Require Special Ethical Consideration? 134
- Informed Consent 135
- When Research is Exempt 143
- Critically Reading Reports of Sampling and Recognizing Common Errors 144
- Published Reports—What do they Say about Consent and the Sampling Process? 144

CHAPTER 8

Data Collection Methods 147

- Revisiting Study Variables 149
- Methods for Constructing the Meaning of Variables in Qualitative Research 152
- Errors in Data Collection in Qualitative Research 154
- Methods to Measure Variables in Quantitative Research 157
- Errors in Data Collection in Quantitative Research 162
- Common Errors in Written Reports of Data Collection Methods 168
- Critically Reading Methods Sections of Research Reports 169
- Connecting Data Collection Methods to Sampling, Results, and Discussion/Conclusion 170
- Published Reports—Would you use these Studies in Clinical Practice? 171

CHAPTER 9

Research Designs: Planning the Study 173

- Research Designs: Why are they Important? 175
- Qualitative Research Designs 182
- Quantitative Research Designs 186
- How can One Get the Wrong Design for the Right Question? 192
- Common Errors in Published Reports of Research Designs 194
- Published Reports—Did Design Affect Your Conclusion? 195
- Critically Reading the Description of the Study Design in a Research Report for use in Evidence-Based Nursing Practice 195

CHAPTER 10

Background and the Research Problem 199

- Sources of Problems for Research 200
- Background Section of Research Reports 202
- Literature Review Sections of Research Reports 205
- Linking the Literature Review to the Study Design 210
- Published Reports—Has the Case Been Made for the Research Study? 211
- Common Errors in Reports of the Background and Literature Review 212
- Critically Reading Background and Literature Review Sections of a Research Report for Use in EBP 213

CHAPTER 11

The Research Process 217

- The Research Process 218
- Research Process Contrasted to the Research Report 227
- Factors that Affect the Research Process 229
- Generating Knowledge Through Research can be Fun! 230
- Published Reports—What do you Conclude Now? 232
- Conclusion 233

APPENDIX A Research Articles 235

- Appendix A-1 Relationships Between Body Satisfaction and Psychological Functioning and Weight-Related Cognitions and Behaviors in Overweight Adolescents 237
- Appendix A-2 Overweight or Obese Students' Perceptions of Caring in Urban Physical Education Programs 242
- Appendix A-3 Leg Length Discrepancy in Cementless Total Hip Arthroplasty 255

Appendix A-4 Teaching Evidence-Based Medicine Literature Searching Skills to Medical Students During the Clinical Years: A Randomized Controlled Trial 261

Appendix A-5 Predictors of Postconcussive Symptoms 3 Months after Mild Traumatic Brain Injury 271

Appendix A-6 The Affects of a Single Bout of Exercise on Mood and Self-Esteem in Clinically Diagnosed Mental Health Patients 286

Appendix A-7 The Use of Postoperative Restraints in Children After Cleft Lip or Cleft Palate Repair: A Preliminary Report 292

Appendix A-8 Investigating Risk Factors for Psychological Morbidity Three Months after Intensive Care: A Prospective Cohort Study 297

Appendix A-9 Quality-of-Life Outcomes between Mastectomy Alone and Breast Reconstruction: Comparison of Patient-Reported BREAST-Q and Other Health-Related Quality-of-Life Measures 316

Appendix A-10 Why People Living with HIV/AIDS Exclude Individuals from their Chosen Families 327

APPENDIX B Demographic Characteristics as Predictors of Nursing Students' Choice of Type of Clinical Practice 339

APPENDIX C Sample In-Class Data Collection Tool 344

APPENDIX D In-Class Study Data for Practice Exercise in Chapter 5 346

Glossary 347

Index 356
