# Contents

## CHAPTER 1

### PERINATAL PATIENT SAFETY AND PROFESSIONAL LIABILITY ISSUES 1

Kathleen Rice Simpson

- Perinatal High Reliability 2
- Leadership 2
- Shared Philosophy of Care 3
- Professional Behavior 6
- Common Areas of Liability and Patient Harm in Clinical Practice 7
- Conflict Resolution 18
- Team Training and Drills for Obstetric Emergencies 21
- Patient Handoffs 22
- Checklists 24
- Medical Record Documentation 24
- Incident Management 26
- Methods of Measuring Patient Safety 29
- Perinatal Patient Safety Nurses 35
- Summary 36

## CHAPTER 2

### INTEGRATING CULTURAL BELIEFS AND PRACTICES WHEN CARING FOR CHILDBEARING WOMEN AND FAMILIES 41

Lynn Clark Callister

- Cultural Frameworks and Cultural Assessment Tools 43
- Practices Associated with Childbearing 46
- Gender Roles 46
- Childbirth Pain and Culture 47
- Major Cultural Groups 47
- Health Differences in Populations of Childbearing Women 55
- Barriers to Culturally Competent Care 56
- Techniques to Integrate Culture into Nursing Care 58
- Summary 64

## CHAPTER 3

### PHYSIOLOGIC CHANGES OF PREGNANCY 71

Susan Tucker Blackburn

- Hormones and Other Mediators 71
- Cardiovascular System 73

- Hematologic Changes 75
- Respiratory System 76
- Renal System 77
- Gastrointestinal System 79
- Metabolic Changes 81
- Endocrine System 81
- Immune System 83
- Neuromuscular and Sensory Systems 84
- Integumentary System 84
- Reproductive Organs 85
- Summary 86

## CHAPTER 4

### ANTENATAL CARE 89

Mary Lee Barron

- Preconception Care 89
- Prenatal Care 90
- Prenatal Risk Assessment 91
- Ongoing Prenatal Care 108
- Fetal Surveillance 112
- Nursing Assessment and Interventions 114
- Summary 117

## CHAPTER 5

### HYPERTENSIVE DISORDERS OF PREGNANCY 122

Judith H. Poole

- Classification and Definitions 122
- Significance and Incidence 124
- Morbidity and Mortality 124
- Risk Factors 125
- Prevention Strategies 126
- Pathophysiology of Preeclampsia 126
- Clinical Manifestations of Preeclampsia-Eclampsia 129
- Preeclampsia versus Severe Preeclampsia 130
- Nursing Assessment and Interventions for Preeclampsia 131
- HELLP Syndrome 141
- Eclampsia 141
- Summary 141

**CHAPTER 6****BLEEDING IN PREGNANCY 143**

Mary Ellen Burke Sosa

- Significance and Incidence 143
- Definitions and Clinical Manifestations 145
- Nursing Assessment 155
- Nursing Interventions 158
- Hemorrhagic and Hypovolemic Shock 159
- Thrombophilias in Pregnancy 160
- Maternal Trauma 161
- Summary 162

**CHAPTER 7****PRETERM LABOR AND BIRTH 166**

Nancy Jo Reedy

- Significance and Incidence 166
- Late Preterm Births 168
- Early Term Births 169
- Why Has the Rate of Preterm Birth Increased? 171
- What Is Preterm Labor? 172
- Pathophysiology of Preterm Labor and Birth 172
- Risk Factors for Preterm Labor and Birth 173
- Preterm Birth Risk in the Context of the Life Course 176
- Can Preterm Labor and Birth Be Prevented? 177
- Is There Any Good News? 191
- Nursing Care for the Prevention of Preterm Birth 191
- Intrapartum Nursing Care of the Woman in Preterm Labor 195
- Summary 195

**CHAPTER 8****DIABETES IN PREGNANCY 203**

Julie M. Daley

- Significance and Incidence 203
- Definitions and Classification 205
- Pathophysiology of Diabetes in Pregnancy 206
- Screening and Diagnosis of Gestational Diabetes Mellitus 207
- Clinical Manifestations 209
- Nursing Assessments and Interventions for Diabetes Mellitus 209
- Ambulatory and Home Care Management 209
- Timing and Mode of Birth 215
- Inpatient Management 216
- Postpartum Management 219
- Summary 220

**CHAPTER 9****CARDIAC DISEASE IN PREGNANCY 224**

Julie Arafah

- Significance and Incidence 224
- Cardiovascular Physiology 225
- Cardiac Adaptations of Pregnancy 227
- Obstetric Outcomes and Assessment of Risk 228
- Congenital Heart Disease in Pregnancy 230
- Acquired Cardiac Disease in Pregnancy 232

Clinical Management 233

Nursing Care 242

Summary 243

**CHAPTER 10****PULMONARY COMPLICATIONS IN PREGNANCY 246**

Suzanne McMurtry Baird and Betsy B. Kennedy

- Anatomic and Physiologic Changes of Pregnancy That Affect the Respiratory System 246
- Recognizing Respiratory Compromise 247
- Fetal Surveillance with Maternal Pulmonary Complications 247
- Asthma 248
- Pneumonia 254
- Pulmonary Edema 259
- Amniotic Fluid Embolism 261
- Venous Thromboembolism 261
- Cystic Fibrosis 266
- Special Considerations for the Respiratory System in Pregnancy 267
- Summary 269

**CHAPTER 11****MULTIPLE GESTATION 272**

Nancy A. Bowers

- Epidemiology 272
- Physiology of Twinning 274
- Role of Infertility and Assisted Reproductive Technology 274
- Diagnosis of Multiple Gestations 278
- Maternal Adaptation 278
- Perinatal Complications 279
- Antepartum Management 286
- Intrapartum Management 289
- Postpartum Management 295
- Multiple Birth Infants 295
- Psychological Issues with Multiple Gestations 302
- Multiple Birth Resources and Support Organizations 306
- Summary 306

**CHAPTER 12****OBESITY IN PREGNANCY 315**

Mary Ann Maher

- Significance and Incidence 315
- Obesity-Related Risks to the Mother and Fetus 317
- Preconception Care 319
- Antenatal Care 320
- Intrapartum Care 321
- Intraoperative Care 324
- Postpartum Care 325
- Bariatric Surgery and Pregnancy 327
- Summary 329

**CHAPTER 13****MATERNAL-FETAL TRANSPORT 332**

Judy Wilson-Griffin

- EMTALA 332
- Types of Maternal-Fetal Transport 333

- Mode of Transport 334
- Transport Equipment 334
- Transport Personnel 334
- Transport Plan and Patient Preparation 335
- Summary 335

## CHAPTER 14

### LABOR AND BIRTH 343

- Kathleen Rice Simpson and Nancy O'Brien-Abel
- Overview of Labor and Birth 343
- Emotional and Physical Support during Labor and Birth 381
- Clinical Interventions for Women in Labor 386
- Dosage and Rate Increase Intervals 399
- Administration 400
- Vaginal Birth 407
- Cesarean Birth 407
- Summary 425

## CHAPTER 15

### FETAL ASSESSMENT DURING LABOR 445

- Audrey Lyndon, Nancy O'Brien-Abel, and Kathleen Rice Simpson
- Introduction 445
- Historical Perspectives 445
- Definitions and Appropriate Use of Terms
  - Describing Fetal Heart Rate Patterns 447
- Techniques of Fetal Heart Rate Monitoring 450
- Physiologic Basis for Fetal Heart Rate Monitoring 454
- Characteristics of the Normal Fetal Heart Rate 459
- Interventions for Indeterminate or Abnormal Fetal Heart Rate Patterns 461
- Fetal Heart Rate Patterns 464
- Clinical Implications for Monitoring the Fetus Less Than 32 Weeks' Gestation during Labor 475
- Assessment of Pattern Evolution 477
- Ancillary Methods for Assessing Fetal Acid-Base Status 480
- Nursing Assessment and Management Strategies 483
- Issues in the Use of Fetal Heart Rate Monitoring during Labor 485
- Summary 487

## CHAPTER 16

### PAIN IN LABOR: NONPHARMACOLOGIC AND PHARMACOLOGIC MANAGEMENT 493

- Carol Burke
- Physiologic Basis for Pain 493
- Psychosocial Factors Influencing Pain Perception 495
- The Nonpharmacologic Model 502
- The Pharmacologic Model 510
- Summary 525

## CHAPTER 17

### POSTPARTUM CARE 530

- Dotti C. James
- Planning for the Transition to Parenthood 530
- Anatomic and Physiologic Changes during the Postpartum Period 540

- Individualizing Care for Women with Special Needs 565
- Postpartum Learning—Needs Assessment and Education 567
- Psychological Adaptation to the Postpartum Period 570
- Fatigue 572
- Family Transition to Parenthood 572
- Postpartum Discharge Follow-up 573
- Evaluation of Postpartum Services 577
- Summary 577

## CHAPTER 18

### NEWBORN ADAPTATION TO EXTRAUTERINE LIFE 581

- Debbie Fraser
- Maternal Medical and Obstetric Conditions Influencing Newborn Adaptation 581
- Unique Mechanisms of Newborn Physiologic Adaptation 581
- APGAR Score 589
- Physical Assessment 589
- Newborn Identification 591
- Vitamin K 592
- Eye Prophylaxis 592
- Umbilical Cord Care 592
- Psychological Adaptation 592
- Complications Affecting Transition 593
- Hepatitis B 594
- Summary 595

## CHAPTER 19

### NEWBORN PHYSICAL ASSESSMENT 597

- Lyn Vargo
- Gestational Age Assessment 597
- Skin Assessment 598
- Head Assessment 602
- Eye Assessment 603
- Ear Assessment 604
- Nose Assessment 606
- Mouth Assessment 607
- Neck Assessment 607
- Chest and Lung Assessment 608
- Cardiovascular Assessment 610
- Abdominal Assessment 612
- Genitourinary System 614
- Musculoskeletal Assessment 616
- Neurologic Assessment 619
- Summary 620

## CHAPTER 20

### NEWBORN NUTRITION 626

- Jill Janke
- Infant Feeding Decision 626
- Benefits of Breastfeeding 626
- Incidence of Breastfeeding 628
- Breastfeeding Promotion 630
- Physiology of Milk Production 630
- Biospecificity of Human Milk 632
- Nutritional Components 632

Preterm Milk and Lactation 633  
Breastfeeding Process 634  
Breastfeeding Management 638  
Potential Breastfeeding Problems 645  
Late Preterm 651  
Medications and Breastfeeding 651  
Postpartum Surgery and Breastfeeding 651  
Formula Feeding 652  
Lactation Suppression 655  
Summary 655

## CHAPTER 21

### COMMON NEONATAL COMPLICATIONS 662

Joan Renaud Smith and Annette Carley  
Neonatal Resuscitation and Stabilization 662  
Respiratory Distress 663

Congenital Heart Disease 666  
Hypoglycemia 669  
Hyperbilirubinemia 671  
Neonatal Sepsis 676  
Perinatal Human Immunodeficiency Virus (HIV)  
Infection 679  
Neonatal Substance Exposure 680  
Late Preterm Infants 684  
Summary 690  
Hypoxic Ischemic Encephalopathy 690  
Pathophysiology 690  
Intervention 691  
Transport and Return Transport 692  
Summary 693
