## UNIT I OVERVIEW OF AGING

### 1 Trends and Issues, 1

- Introduction to Geriatric Nursing, 1
  - Historical Perspective on the Study of Aging, 1
  - What's in a Name: Geriatrics, Gerontology, and Geriatrics, 2
- Attitudes Toward Aging, 3
  - Gerontophobia, 5
- Demographics, 6
  - Scope of the Aging Population, 7
  - Gender and Ethnic Disparity, 7
  - The Baby Boomers, 8
  - Geographic Distribution of the Elderly Population, 8
  - Marital Status, 9
  - Educational Status, 9
- Economics of Aging, 10
  - Poverty, 10
  - Income, 10
  - Wealth, 13
- Housing Arrangements, 13
- Health Care Provisions, 16
  - Medicare and Medicaid, 16
  - Rising Costs and Legislative Activity, 17
  - Costs and End-of-Life Care, 18
  - Advance Directives, 19
- Impact of Aging Members in the Family, 19
  - Personal Reflection, 20
  - The Nurse and Family Interactions, 21
  - Self-Neglect, 22
  - Abuse or Neglect by the Family, 22
  - Abuse by Unrelated Caregivers, 25
  - Support Groups, 26
  - Respite Care, 26

### 2 Theories of Aging, 28

- Biologic Theories, 28
- Psychosocial Theories, 30
- Implications for Nursing, 30

### 3 Physiologic Changes, 32

- The Integumentary System, 33
  - Expected Age-Related Changes, 33
  - Common Disorders seen with Aging, 35
- The Musculoskeletal System, 36
  - Bones, 36
  - Vertebrae, 37
  - Joints, 37
  - Tendons and Ligaments, 37
  - Muscles, 37

- Expected Age-Related Changes, 38
- Common Disorders seen with Aging, 39
- The Respiratory System, 40
  - Upper Respiratory Tract, 41
  - Lower Respiratory Tract, 41
  - Air Exchange (Respiration), 41
  - Expected Age-Related Changes, 41
  - Common Disorders seen with Aging, 42
- The Cardiovascular System, 44
  - Heart, 44
  - Blood Vessels, 44
  - Conduction System, 45
  - Expected Age-Related Changes, 45
  - Common Disorders seen with Aging, 46
- The Hematopoietic and Lymphatic Systems, 48
  - Blood, 48
  - Lymph System, 49
  - Expected Age-Related Changes, 49
  - Common Disorders seen with Aging, 50
- The Gastrointestinal System, 50
  - Oral Cavity, 51
  - Tongue, 51
  - Salivary Glands, 51
  - Esophagus, 51
  - Stomach, 51
  - Small Intestine, 51
  - Large Intestine, 51
  - Expected Age-Related Changes, 52
  - Common Disorders seen with Aging, 53
- The Urinary System, 54
  - Kidneys, 54
  - Ureters and Bladder, 54
  - Characteristics of Urine, 55
  - Expected Age-Related Changes, 55
  - Common Disorders seen with Aging, 56
- The Nervous System, 56
  - Central Nervous System, 57
  - Peripheral Nervous System, 57
  - Expected Age-Related Changes, 57
  - Common Disorders seen with Aging, 58
- The Special Senses, 61
  - Refraction, 62
  - Expected Age-Related Changes, 63
  - Common Disorders seen with Aging, 64
  - Expected Age-Related Changes, 65
  - Common Disorders seen with Aging, 66
  - Expected Age-Related Changes, 67
- The Endocrine System, 67
  - Pituitary Gland, 67
  - Thyroid Gland, 67

- Parathyroid Glands, 68
- Pancreas, 68
- Adrenal Glands, 68
- Ovaries and Testes, 68
- Expected Age-Related Changes, 68
- Common Disorders seen with Aging, 69
- The Reproductive and Genitourinary Systems, 71
  - Female Reproductive Organs, 71
  - Male Reproductive Organs, 71
  - Expected Age-Related Changes, 71
  - Common Disorders seen with Aging, 72

## UNIT II BASIC SKILLS FOR GERONTOLOGIC NURSING

### 4 Health Promotion, Health Maintenance, and Home Health Considerations, 74

#### Recommended Health Practices for Older Adults, 75

- Diet, 75
- Exercise, 75
- Tobacco and Alcohol, 75
- Physical Examinations and Preventive Overall Care, 76
- Dental Examinations and Preventive Oral Care, 77
- Maintaining Healthy Attitudes, 78

#### Factors That Affect Health Promotion and Maintenance, 78

- Religious Beliefs, 78
- Cultural Beliefs, 79
- Knowledge and Motivation, 79
- Mobility, 79
- Perceptions of Aging, 80
- Impact of Cognitive and Sensory Changes, 80
- Impact of Changes Related to Accessibility, 80

#### Home Health, 81

- Unpaid Caregivers, 81
- Paid Caregivers, 82
- Types of Home Services, 82

### 5 Communicating with Older Adults, 88

#### Information Sharing (Framing the Message), 88

#### Formal or Therapeutic Communication, 89

#### Informal or Social Communication, 90

#### Nonverbal Communication, 90

- Symbols, 90
- Tone of Voice, 90
- Body Language, 91
- Space, Distance, and Position, 91
- Gestures, 91
- Facial Expressions, 92
- Eye Contact, 92
- Pace or Speed of Communication, 92
- Time and Timing, 92
- Touch, 93
- Silence, 93

#### Acceptance, Dignity, and Respect in Communication, 93

#### Barriers to Communication, 94

- Hearing Impairment, 95
- Aphasia, 95
- Dementia, 95
- Cultural Differences, 96

#### Skills and Techniques, 97

- Informing, 97
- Direct Questioning, 97
- Using Open-Ended Techniques, 97
- Confronting, 97
- Communicating with Visitors and Families, 97
- Delivering Bad News, 98
- Having Difficult Conversations, 98
- Improving Communication between Elderly Patient and Physician, 99
- Communicating with Physicians, 99
- Patient Teaching, 99

### 6 Maintaining Fluid Balance and Meeting Nutrition Needs, 102

#### Nutrition and Aging, 102

- Caloric Intake, 102
- Nutrients, 103
- Water, 109

#### Malnutrition and the Elderly, 110

- Factors Affecting Nutrition in the Elderly, 110
- Social and Cultural Aspects of Nutrition, 112
- Nursing Process for Risk for Aspiration, 126

### 7 Medications and Older Adults, 131

#### Risks Related to Drug-testing Methods, 131

#### Risks Related to the Physiologic Changes of Aging, 132

- Pharmacokinetics, 132
- Pharmacodynamics, 133

#### Beers Criteria for Potentially Inappropriate Medication Use in Older Adults, 134

#### Risks Related to Cognitive or Sensory Changes, 134

#### Risks Related to Inadequate Knowledge, 137

#### Risks Related to Financial Factors, 140

#### Medication Administration in an Institutional Setting, 140

#### Nursing Assessment and Medication, 140

#### Medications and the Nursing Care Plan, 142

- Nursing Interventions Related to Medication Administration, 142

#### Patient Rights and Medication, 146

#### Self-medication and Older Adults, 146

- In an Institutional Setting, 146
- In the Home, 147

#### Teaching Older Adults About Medications, 147

#### Safety and Noncompliance (Nonadherence) Issues, 148

### 8 Health Assessment of Older Adults, 151

#### Health Screening, 151

#### Health Assessments, 151

- Interviewing Older Adults, 152
  - Preparing the Physical Setting, 152
  - Establishing Rapport, 153
  - Structuring the Interview, 153
- Obtaining the Health History, 154
- Physical assessment of Older Adults, 154
  - Inspection, 155
  - Palpation, 155
  - Auscultation, 156
  - Percussion, 156
- Assessing Vital Signs in Older Adults, 156
  - Temperature, 156
  - Pulse, 157
  - Respiration, 157
  - Blood Pressure, 158
- Sensory Assessment of Older Adults, 161
- Psychosocial Assessment of Older Adults, 161
  - Special Assessments, 162
- Assessment of Condition Change in the Elderly, 164
  - Fulmer SPICES, 164
  - FANCAPES, 164
- 9 Meeting Safety Needs of Older Adults, 167**
  - Internal Risk Factors, 167
    - Falls, 168
  - External Risk Factors, 169
    - Fire Hazards, 169
    - Home Security, 170
    - Vehicular Accidents, 170
    - Thermal Hazards, 172
  - Summary, 174

### **UNIT III PSYCHOSOCIAL CARE OF THE ELDERLY**

- 10 Cognition and Perception, 180**
  - Normal Cognitive-Perceptual Functioning, 180
    - Cognition and Intelligence, 181
    - Cognition and Language, 181
- 11 Self-Perception and Self-Concept, 200**
  - Normal Self-Perception and Self-Concept, 200
  - Self-Perception/Self-Concept and Aging, 202
    - Depression and Aging, 203
    - Suicide and Aging, 203
- 12 Roles and Relationships, 214**
  - Normal Roles and Relationships, 214
  - Roles, Relationships, and Aging, 215
- 13 Coping and Stress, 224**
  - Normal stress and coping, 224
    - Physical Signs of Stress, 224
    - Cognitive Signs of Stress, 225
    - Stress and Illness, 227
    - Stress and Life Events, 227
    - Stress-Reduction and Coping Strategies, 227
- 14 Values and Beliefs, 234**
  - Common Values and Beliefs of Older Adults, 236
    - Economic Values, 237
    - Intrapersonal Values, 237
    - Cultural Values, 237
    - Spiritual or Religious Values, 237
- 15 End-of-Life Care, 243**
  - Death in Western Cultures, 243
  - Attitudes Toward Death and End-of-Life Planning, 243
    - Advance Directives, 244
    - Caregiver Attitudes toward End-of-Life Care, 245
  - Values Clarification Related to Death and End-of-Life Care, 245
  - What is a "Good" Death?, 246
  - Where People Die, 246
  - Palliative care, 247
  - Collaborative Assessment and Interventions for End-of-Life Care, 247
  - Communication at the End of Life, 247
  - Psychosocial Perspectives, Assessments, and Interventions, 248
    - Cultural Perspectives, 248
    - Communication About Death, 248
    - Decision-Making Process, 249
    - Spiritual Considerations, 249
    - Depression, Anxiety, and Fear, 250
  - Physiologic Changes, Assessments, and Interventions, 250
    - Pain, 250
    - Fatigue and Sleepiness, 252
    - Cardiovascular Changes, 252
    - Respiratory Changes, 253
    - Gastrointestinal Changes, 253
    - Urinary Changes, 254
    - Integumentary Changes, 254
    - Sensory Changes, 254
    - Changes in Cognition, 255
  - Death, 255
  - Funeral Arrangements, 256
  - Bereavement, 256
- 16 Sexuality and Aging, 259**
  - Factors that Affect Sexuality of Older Adults, 259
    - Normal Changes in Women, 259
    - Erectile Dysfunction in Men, 260
    - Illness and Decreased Sexual Function, 260
    - Alcohol and Medications, 260
    - Loss of a Sex Partner, 260
  - Marriage and Older Adults, 261
  - Caregivers and the Sexuality of Older Adults, 261
  - Sexual Health and Sexual Orientation, 261
  - Privacy and Personal Rights of Older Adults, 262

**UNIT IV PHYSICAL CARE OF THE ELDERLY****17 Care of Aging Skin and Mucous Membranes, 266**

Age-Related Changes in Skin, Hair, and Nails, 266

Skin Color, 267

Dry Skin, 267

Rashes and Irritation, 268

Pigmentation, 268

Tissue Integrity, 268

Pressure Ulcers, 269

Amount, Distribution, Appearance, and

Consistency of Hair, 271

Age-Related Changes in Oral Mucous

Membranes, 279

Dental Caries, 279

Periodontal Disease, 279

Pain, 279

Dentures, 279

Dry Mouth, 280

Leukoplakia, 280

Cancer, 280

Disorders Caused by Vitamin

Deficiencies, 280

Superinfections, 280

Alcohol and Tobacco-Related Problems, 281

Problems Caused by Neurologic

Conditions, 281

**18 Elimination, 286**

Normal Elimination Patterns, 286

Elimination and Aging, 286

Constipation, 287

Fecal Impaction, 288

Diarrhea, 291

Bowel Incontinence, 293

Urinary Retention, 293

Urinary Tract Infection, 294

Urinary Incontinence, 294

**19 Activity and Exercise, 302**

Normal Activity Patterns, 302

Activity and Aging, 303

Exercise Recommendations for Older  
Adults, 303

Effects of Disease Processes on Activity, 305

Rehabilitation, 324

**20 Sleep and Rest, 328**

Sleep-Rest Health Pattern, 328

Normal Sleep and Rest, 328

Sleep and Aging, 329

Sleep Disorders, 329

**Appendix A** Laboratory Values for Older Adults, 337**Appendix B** The Geriatric Depression Scale  
(GDS), 341**Appendix C** Dietary Information for Older Adults, 342**Appendix D** Resources for Older Adults, 344**Bibliography and Reader References, 346****Glossary, 357****Illustration Credits, 362****Index, 365****Study Guide, 379** • •
