# Contents

## 1 Introduction to the Human Body ... 1

The Big Picture	1
Anatomy and Physiology Defined	2
Structural Levels of Organization	3
The Characteristics of Life	8
Basic Terminology	9
The Body Plan	14
Homeostasis: The Balance of Life	17

## 2 The Chemical Foundation of Life.. 22

The Big Picture	22
Atoms, Elements, and Molecules	23
Chemical Bonds	27
Chemical Reactions	30
Chemical Compounds of the Cell	31

## 3 Cells: The Basis of Life ..... 43

The Big Picture	43
The Environments of the Cell	44
Cell Structure and Function:	
The Cell Membrane	45
Cell Structure and Function:	
The Cytoplasm and Its Organelles	55
Cell Structure and Function: The Nucleus	59
Protein Synthesis	62
Life Cycle of the Cell	64

## 4 Tissues ..... 70

The Big Picture	70
Epithelial Tissue	71
Connective Tissue	78
Muscle Tissue	87
Nervous Tissue	89
Membranes	90

## 5 The Integumentary System ..... 96

The Big Picture	96
The Skin	97
Accessory Organs	102
Repair Mechanisms of the Skin	105
Temperature Regulation	107

## 6 The Skeletal System ..... 112

The Big Picture	112
Bone Structure	113
Bone Development, Growth, and Remodeling	118
Organization of the Skeleton	123
Bones of the Axial Skeleton	126
The Appendicular Skeleton	136
Joints	145

## 7 The Muscular System ..... 155

The Big Picture	155
Muscle Structure	156
Physiology of Muscle Contraction	162
Muscle Mechanics	167
Production of Movement	169
Major Muscles of the Body	170

## 8 The Nervous System ..... 186

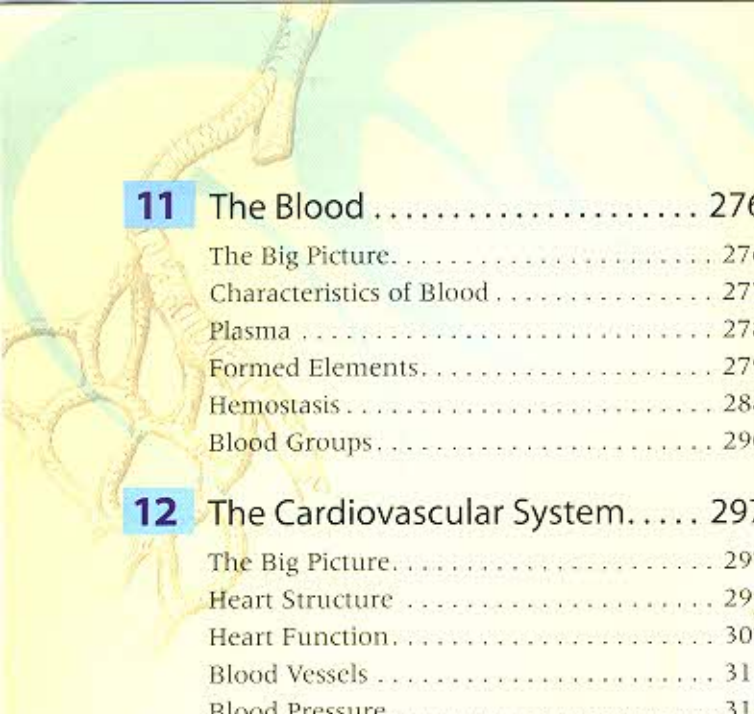

The Big Picture	186
Organization of the Nervous System	187
Nervous Tissue	188
Neuron Physiology	193
The Central Nervous System	199
The Peripheral Nervous System	211

## 9 Sensation ..... 223

The Big Picture	223
Comparing Sensory and Motor Functions	224
General Senses	227
Special Senses	230

## 10 The Endocrine System ..... 250

The Big Picture	251
Composition of the Endocrine System	251
Hormones	252
Pituitary Gland	256
Thyroid Gland and Parathyroid Glands	260
Adrenal Glands	264
Pancreas	266
Gonads, Pineal Gland, and Thymus Gland	270

**11** The Blood ..... 276

The Big Picture.....	276
Characteristics of Blood.....	277
Plasma.....	278
Formed Elements.....	279
Hemostasis.....	288
Blood Groups.....	290

**12** The Cardiovascular System..... 297

The Big Picture.....	297
Heart Structure.....	299
Heart Function.....	307
Blood Vessels.....	313
Blood Pressure.....	318
Circulatory Pathways.....	321

**13** The Lymphatic System  
and the Body's Defenses..... 333

The Big Picture.....	334
The Lymphatic Network.....	334
Other Lymphatic Organs.....	337
Defense Mechanisms of the Body.....	340
Innate Immunity.....	341
Adaptive Immunity.....	344

**14** The Respiratory System..... 358

The Big Picture.....	358
Upper Respiratory Organs.....	360
Lower Respiratory Organs.....	363
Mechanics of Breathing.....	371
Exchange of Gasses.....	374
Control of Breathing.....	377

**15** The Digestive System..... 383

The Big Picture.....	383
Features of the Digestive System.....	384
Upper Digestive Organs.....	388
Lower Digestive Organs.....	394
Nutrition.....	407

**16** The Urinary System..... 417

The Big Picture.....	417
Kidney Structure.....	418
Kidney Functions.....	422
Ureters, Urinary Bladder, and Urethra.....	432

**17** The Reproductive System..... 438

The Big Picture.....	438
Organs of Male Reproduction.....	439
Physiology of Male Reproduction.....	445
Organs of Female Reproduction.....	447
Physiology of Female Reproduction.....	454

**18** Human Development  
and Inheritance..... 461

The Big Picture.....	461
Prenatal Development.....	462
Parturition.....	470
Postnatal Development.....	472
Genetic Inheritance.....	474

<i>Glossary</i> .....	482
<i>Appendix: Answers to Learning Questions</i> .....	506
<i>Figure Credits</i> .....	514
<i>Index</i> .....	519
