Contents

About the Author	v
Contributors	vii
Preface	ix

SECTION 1 NEUROSCIENCE NURSING: CONTEMPORARY PRACTICE 1

CHAPTER 1 The State of the Science of Neuroscience Nursing Practice 1

Joanne V. Hickey

The State of Health Care and Practice	1
The Information Society	1
Trends Shaping Health Care Delivery	2
National Agenda for Health	5
Professional Nursing and Neuroscience Specialty Practice	6

CHAPTER 2 Care Settings and Transitions in Care 10

Susan B. Fowler and Joanne V. Hickey

Health Care Financing	10
Managed Care	10
The Focus of Health Care	11
Focus on Care	11
The Continuum of Health Care Services	13
Transitions in Care and Discharge Planning	16
Planning for Transitions in Health Care Settings	17
Discharge Planning for Neuroscience Patients	17

CHAPTER 3 Ethical Perspectives and End-of-Life Care 20

Shannon E. Pearce and Joanne V. Hickey

National Initiatives and Trends	20
An Ethical Perspective of Neuroscience Practice	20
Ethics, Morality, and Legality	21
Framework for Ethical Decision Making	22
Interdisciplinary Team	23
Decision-Making Capacity and Advance Directives and Living Wills	26
End-of-Life Care	27
Domains of Palliative Care	27
Referral to Palliative Care	28

Selected End-of-Life Ethical Issues Common in Neuroscience Nursing Practice	28
Fostering Professional Growth in Ethical Decision Making	33

CHAPTER 4 Organ Donation and Donor Management 35

Maureen T. Smith and Joanne V. Hickey

Organ Donation after Cardiac or Circulatory Death (DCD)	36
Organ Donation after Neurological Death	36
Reflex Motor Activity	37
Confirmatory Testing	37
Role of the Neuroscience Nurse Related to Brain Death	37
Organ Donation	39
Factors that Influence Consent for Donation	39
Clinical Management of Brain-Dead Organ Donors	40
Cardiovascular and Hemodynamic Management	41
Pulmonary Management	42
Endocrine System Failure Management	42
Temperature Management	46
Hematological System Interventions	46
Aggressive Plan of Care Optimizes Organ Function	46

SECTION 2 ASSESSMENT AND EVALUATION OF NEUROSCIENCE PATIENTS 48

CHAPTER 5 Overview of Neuroanatomy and Neurophysiology 48

Joanne V. Hickey and Joseph T. Kanusky

Embryonic Development of the Nervous System	48
Cells of the Nervous System	48
Components of the Cell Body	49
Cell Processes: Axons and Dendrites	50
Physiology of Nerve Impulses	51
Functions and Divisions of the Nervous System	53
Cranial and Spinal Bones	53
Sutures of the Skull	54
Spine	54
Ligaments of the Spine	56
Intervertebral Discs	56
Meninges	56
Cerebrospinal Fluid	59
Formation of Cerebrospinal Fluid	59

Cerebrovascular Circulation 60
 Characteristics of the Cerebral Circulation 62
 Blood–Brain Barrier 65
 Brain (Encephalon) 65
 General Functions of the Cerebral Cortex According to Lobes 67
 Dominance of a Cerebral Hemisphere 69
 Corpus Callosum 69
 Basal Ganglia 70
 Diencephalon 70
 Internal Capsule 70
 Hypophysis (Pituitary Gland) 70
 Brainstem (Midbrain, Pons, and Medulla) 71
 Cerebellum 73
 Special Systems within the Brain 73
 Spinal Cord 74
 Dorsal (Sensory) Roots 76
 Ventral (Motor) Roots 76
 Classification of Nerve Fibers 77
 Motor System 78
 Sensory System 80
 Autonomic Nervous System 80
 Cranial Nerves 88

CHAPTER 6

Diagnosics for Patients with Neurological Disorders 93

Joanne V. Hickey

Patient and Family Teaching 94
 Outpatient Procedures 94
 Hospitalized Patients and Procedures 94
 X-Rays of the Head and Vertebral Column 94
 Spinal X-Rays 95
 Anatomic Imaging Techniques of the Brain 95
 Physiologic Imaging Techniques of the Brain 100
 Cerebrospinal Fluid and Spinal Procedures 101
 Cerebrovascular Studies 103
 Biopsies 107
 Nervous System Electrical Activity and Conduction 107
 Testing of the Special Senses 110
 Neuropsychological Examination 111
 Common Neuropsychological Deficits Associated with Cerebral Dysfunction 112

CHAPTER 7

Comprehensive Neurological Examination 113

Joanne V. Hickey

Purposes 113
 The Neurological Examination 114
 Conducting the Neurological Examination 115
 Level of Consciousness 116
 Mental Status Examination 116
 Cranial Nerve Examination 122

Motor System Examination 134
 Upper Extremities 135
 Lower Extremities 135
 Sensory System Examination 141
 Cerebellar System Examination 145
 Reflexes 146
 The Neurological Examination of the Comatose Patient 148

CHAPTER 8

Neurological Assessment 154

Joanne V. Hickey

Establishing a Nursing Database 154
 Overview of Neurological Assessment 155
 Frequency of Assessment and Documentation 156
 Concept of Consciousness 156
 Identifying the Levels of Consciousness 159
 The Glasgow Coma Scale 160
 Changes in Level of Consciousness 161
 Recovery and Rehabilitation 162
 Behavior and Stream of Mental Activity 163
 Cranial Nerve Assessment 163
 Assessment of Visual Fields (Optic Nerve) 165
 Assessment of Pupils (Oculomotor Nerve) 165
 Assessment of Extraocular Movement (Oculomotor, Trochlear, and Abducens Nerves) 167
 Assessment of the Conscious, Cooperative Patient 167
 Assessment of the Unconscious Patient 171
 Assessment of Motor Function 172
 Assessment of Muscle Strength 174
 Involuntary Movement, Posture, and Gait 174
 Sensory Assessment 174
 Frequency and Documentation of Sensory Data 175
 Assessment of Cerebellar Function 175
 Vital Signs and Clinical Implications 175

SECTION 3

GENERAL CONSIDERATIONS IN NEUROSCIENCE NURSING 182

CHAPTER 9

Nutritional Support for Neuroscience Patients 182

Joanne V. Hickey and Elizabeth O. Jacobs

Basic Nutritional Requirements 182
 Metabolic Changes and Characteristics of Acute Stress 184
 Nutritional Assessment 185
 Estimating Nutrient Requirements 187
 Providing Nutrients 187
 Problems Associated with Tube Feedings 189
 The Nurse's Role: Meeting the Nutritional Needs of Patients 191

CHAPTER 10

Neuroendocrine Disorders in Neuroscience Patients ... 197

Laura J. Griffin and Joanne V. Hickey

- Hypothalamic–Pituitary–Axis 197
- Hypothalamic–Pituitary–Adrenal Axis 200
- Fluid and Sodium Regulation 200
- Dysfunction of Hypothalamic–Pituitary Axis 202
- Sodium Disturbances 203
- Syndrome of Inappropriate Secretion of Antidiuretic Hormone 205
- Cerebral Salt Wasting 206
- Hypernatremia 206
- Diabetes Insipidus 207
- Other Common Electrolyte Imbalances 209
- Hypothalamic–Pituitary–Adrenal Axis Dysfunction 209

CHAPTER 11

Rehabilitation of Patients with Neurological Disorders 213

Joanne V. Hickey and Emily C. Bonvillian

- Framework for Disability 213
- Concepts of Rehabilitation 213
- A Philosophy of Rehabilitation 214
- Assessment of Activities of Daily Living 216
- Principles of Rehabilitation Nursing 216
- The Basis of Movement and Treatment of Movement Disorders 218
- Management of the Skin 225
- Sensory–Perceptual Deficits 225
- Communication Deficits 226
- Swallowing Deficits 226
- Bladder Dysfunction and Retraining 230
- Bowel Elimination and Dysfunction 235
- Cognitive Rehabilitation 236
- Home–Based Care of the Patient Who is Ventilator Dependent 237
- Discharge Planning 237
- Rehabilitation Legislation and Entitlement Programs 237

CHAPTER 12

Pharmacologic Management of Neuroscience Patients 238

Timothy F. Lassiter and Amy I. Henkel

- Overview 238
- Commonly Used Drugs along the Continuum of Care 239
- Antibiotics 247
- Steroids 251
- Diuretics 252
- Gastrointestinal Agents 253
- Anticoagulants and Antiplatelet Agents 254
- Electrolyte Management 256
- Pharmacologic Treatment of Multiple Sclerosis 257
- Pharmacologic Treatment of Myasthenia Gravis 260
- Pharmacologic Treatment of Parkinson’s Disease 262

SECTION 4

COMMON MANAGEMENT PROBLEMS WITH NEUROSCIENCE PATIENTS 266

CHAPTER 13

Intracranial Hypertension: Theory and Management of Increased Intracranial Pressure 266

Karen S. March and Joanne V. Hickey

- Concept of Intracranial Pressure 266
- Pathophysiology 271
- Herniation Syndromes of the Brain 273
- Signs and Symptoms of Increased Intracranial Pressure 279
- Management of Patients with Intracranial Hypertension: An Interdisciplinary Collaborative Problem 282
- Monitoring Intracranial Pressure 292
- Special Syndromes: Benign Intracranial Hypertension and Hydrocephalus 295

CHAPTER 14

Management of Patients Undergoing Neurosurgical Procedures 300

Lori K. Madden, Peter K. Tham, and Kiarash Shahlaie

- The Preoperative Phase 300
- The Perioperative Phase 301
- Neurosurgical Procedures and Other Related Therapeutic Techniques 305
- Postoperative Phase 309
- Postoperative Management and Prevention of Complications 315
- Neurological Deficits in the Postoperative Period 318
- Nurse’s Role in Rehabilitation and Discharge Planning 320
- Selected Neurosurgical Procedures 320
- Future Trends 323

CHAPTER 15

Management of Patients with a Depressed Level of Consciousness 325

Joanne V. Hickey and Bahia Elkamand

- Immobility 325
- Specialty Beds and Support Surfaces 331
- The Consequences of Immobility: Management of the Patient with Depressed Consciousness 332
- The Care Environment 340
- Communications 341
- Regaining Consciousness 341

SECTION 5

NURSING MANAGEMENT OF PATIENTS WITH INJURY TO THE NEUROLOGICAL SYSTEM 343

CHAPTER 16

Cranio-cerebral Injuries 343

Karen S. March and Joanne V. Hickey

- Scope of the Problem 343
- Overview of Cranio-cerebral Trauma 343

Pathophysiology 344
 Primary Brain Injury 344
 Secondary Brain Injury 346
 Primary Injury: Diagnosis and Management 348
 Other Injuries Related to Traumatic Brain Injury 355
 Management of the Traumatic Brain Injury Patient:
 the Continuum of Care 355
 Prehospital Management 359
 Emergency Department or Trauma Center
 Management 360
 Intensive Care Unit Management of Severe Traumatic
 Brain Injury 361
 Management of Severe Traumatic Brain Injury During the
 Postacute Phase 371
 Rehabilitation 371
 Predicting Outcome from Traumatic Brain Injury 371
 Prevention of Traumatic Brain Injury 372
 Management of Traumatic Brain Injury: A Dynamic Process
 Through Research 372
 Assessment and Clinical Reasoning: Key Role of the
 Neuroscience Nurse in Patient Care 373
 Nursing Management of Traumatic Brain Injury 375
 Nursing Management for Special Problems 376
 Summary and Future Trends 376

CHAPTER 17
Spine and Spinal Cord Injuries 382
Andrea L. Strayer and Joanyte V. Hickey
 A Perspective 382
 Understanding the Spine and Spinal Cord Injuries 383
 Specific Categories of Injuries 384
 Acute Spinal Cord Trauma 400
 Early Management of Patients with Spinal
 Cord Injury 404
 Surgical Management of Spinal Cord Injury 407
 Nonsurgical Management of Spinal Fractures and Spinal Cord
 Injuries 408
 Focus on Collaborative Management in the Acute and
 Postacute Phases 410
 Major Patient Management Responsibilities of the Nurse 411

CHAPTER 18
Back Pain and Spinal Disorders 430
Andrea L. Strayer and Joanne V. Hickey
 Conditions Related to Back or Neck Pain 430
 Herniated Intervertebral Discs 436
 Additional Common Diagnoses 449
 Recurrent Symptoms after Surgery 458

CHAPTER 19
Traumatic Peripheral Nerve Injuries 460
Andrea L. Strayer and Joanne V. Hickey
 Mechanisms of Injury 460
 Nerve Anatomy 461
 Classification of Peripheral Nerve Injuries 462

Diagnosis of Peripheral Nerve Injuries 463
 Peripheral Nerve Injuries: Treatment 467
 Collaborative and Nursing Management of the Patient with
 Peripheral Nerve Trauma 467

SECTION 6
NURSING MANAGEMENT OF PATIENTS
WITH NEOPLASMS OF THE
NEUROLOGICAL SYSTEM 471

CHAPTER 20
Brain Tumors 471
Jennifer E. Cahill and Terri S. Armstrong
 Overview of Brain Tumors 471
 Signs and Symptoms of Brain Tumor 474
 Associated Increased Intracranial Pressure Signs 476
 Approach to the Patient with a Brain Tumor 481
 Nursing Management of the Patient with a
 Brain Tumor 490

CHAPTER 21
Spinal Cord Tumors 496
Gisela Sanchez-Williams and Terri S. Armstrong
 Epidemiology 496
 Classification 496
 Pathophysiology 498
 Signs and Symptoms Associated with Spinal Cord
 Tumors 500
 Diagnosis 502
 Principles of Treatment 504
 Nursing Management of the Patient with a Spinal Cord
 Tumor 506

SECTION 7
NURSING MANAGEMENT OF PATIENTS WITH
CEREBROVASCULAR PROBLEMS 511

CHAPTER 22
Transient Ischemic Attacks and Acute
Ischemic Stroke 511
Sarah L. Livesay and Joanne V. Hickey
 Disease-Specific Certification: Primary and Comprehensive
 Stroke Centers 512
 Public and Professional Education 512
 Transient Ischemic Attacks 513
 Definition and Classification of Stroke 513
 Ischemic Stroke Subtypes 515
 Anatomy, Atherogenesis, and Pathophysiology Related to
 Acute Ischemic Stroke 517
 Signs and Symptoms of Stroke Syndromes According to the
 Involved Vessel 520
 Medical Management and Treatment of Acute Ischemic
 Stroke 525
 General Nursing Management of the Stroke Patient 533

CHAPTER 23

Intracerebral Hemorrhagic Stroke 542

Joanne V. Hickey and Sarah L. Livesay

- Overview 542
- Etiology of Intracerebral Hemorrhage 542
- Pathophysiology of Intracerebral Hemorrhagic Stroke 543
- Clinical Presentation of Intracerebral Hemorrhagic Stroke 544
- Diagnostics 545
- Nursing Management of the Hemorrhagic Stroke Patient 548
- Coordination and Transitions in Care and Discharge Planning 551

CHAPTER 24 554

Cerebral Aneurysms

Deidre A. Buckley and Joanne V. Hickey

- Overview 554
- Classification 555
- Location 555
- Etiology 556
- Ruptured Aneurysms 557
- Signs and Symptoms 560
- Diagnosis 562
- Initial Approach to Medical Management 565
- Surgical/Interventional Treatment 568
- Complications of Aneurysmal Rupture/Bleeding 579
- Nursing Management of the Patient with a Cerebral Aneurysm 584

CHAPTER 25
Arteriovenous Malformations and Other Cerebrovascular Anomalies 592

Deidre A. Buckley and Joanne V. Hickey

- Classifications of Vascular Malformations 592
- Arteriovenous Malformations in the Adult: An Overview 595
- Pediatric Arteriovenous Malformations 602
- Arteriovenous Malformations and Pregnancy 608
- Nursing Management of Arteriovenous Malformations 608

SECTION 8
NURSING MANAGEMENT OF PATIENTS WITH PAIN, SEIZURES, AND CNS INFECTIONS 612

CHAPTER 26
Chronic Pain 612

Maureen E. Cooney

- Definition of Terms 612
- Pain Theories 613
- Anatomy and Physiology of Pain 615
- Nursing Management of Patients with Chronic Pain 625
- Pain Management and the Future 626

CHAPTER 27
Headaches 628

Joanne V. Hickey and Amy E. Larson

- Pain-Sensitive Cranial Structures and Pathophysiology 628
- Classification of Headaches 629
- Approach to Management of Headaches 630
- Nursing Management of the Patient with Headache 637

CHAPTER 28
Seizures and Epilepsy 641

Kathy M. England and Madona D. Plueger

- Introduction 641
- Entry into Healthcare 642
- Background and Definitions 642
- Seizure Classification and Observations/Identification 645
- Treatment 651
- First-Generation AEDs 655
- Second-Generation AEDs 656
- Other Treatment Options 659
- Management of Seizures and Status Epilepticus 659
- Nursing Management of Patients with Epilepsy: Community-Based Care 662

CHAPTER 29
Infections of the Central Nervous System 666

Michelle VanDemark and Joanne V. Hickey

- Meningitis 666
- Encephalitis 673
- Other Viral Organisms that Attack the Central Nervous System 679
- Subdural Empyema 682
- Extradural Abscesses 682

SECTION 9
NURSING MANAGEMENT OF PATIENTS WITH NEURODEGENERATIVE DISEASES 685

CHAPTER 30
Mild Cognitive Impairment, Dementias, and Alzheimer's Disease 687

Vaunette P. Fay and Christine St. Michel

- Mild Cognitive Impairment 687
- Pathophysiology of MCI 687
- Prevalence of MCI 687
- Dementia 687
- Alzheimer's Disease 692

CHAPTER 31
Parkinson's Disease 697

Joanne V. Hickey

- Neuroanatomy 697
- Signs and Symptoms 699
- Diagnosis 700
- Medical Management 701
- Nursing Management 703

CHAPTER 32	
Multiple Sclerosis	705
<i>Megan R. Weigel and Joanne V. Hickey</i>	
Pathogenesis and Pathophysiology	707
Research	714
CHAPTER 33	
Myasthenia Gravis	716
<i>Wilma J. Koopman and Joanne V. Hickey</i>	
Neuromuscular Transmission and Pathophysiology	716
Nursing Management	724
CHAPTER 34	
Amyotrophic Lateral Sclerosis	726
<i>Joanne V. Hickey</i>	
Pathophysiology	726
Treatment and Management	729
Collaborative Problems	729
Palliative Care and End-of-Life Issues	731
Nursing Management	731
Research	732

SECTION 10	
NURSING MANAGEMENT OF PATIENTS WITH PERIPHERAL NERVE DISEASES	734

CHAPTER 35	
Peripheral Neuropathies	734
<i>Joanne V. Hickey</i>	
Pathophysiology	735
Distribution Patterns of Peripheral Neuropathies	737
Development of Signs and Symptoms	737
Signs, Symptoms, and Clinical Presentations	737
Approach to the Patient	738
Selected Peripheral Neuropathies	739

CHAPTER 36	
Cranial Nerve Diseases	751
<i>Mary M. Guanci</i>	
Trigeminal Nerve	751
Trigeminal Neuralgia	751
Bell's Palsy	754
Ménière's Disease	754
Glossopharyngeal Neuralgia	755

Index	757
--------------------	-----
