How to Use This Text	xx

PART 1 Promotion, Planning, and Theories 1

CHAPTER 1 DISTINCTIONS BETWEEN HEALTH PROMOTION AND HEALTH EDUCATION 2

Introduction	3
Dimension #1: Introspection vs. Positivism	5
Dimension #2: Deductive vs. Inductive Reasoning	7
Dimension #3: Community as a Recipient or Active Participant	10
Dimension #4: High-Risk vs. General Population	10
Dimension #5: Western Culture vs. Traditional Values vs. Universalism	13
Summary	14
Review Questions	15
Web Resources	17
References	17

CHAPTER 2 PROGRAM PLANNING MODELS: AN APPROACH TO INTERVENTION DESIGN 19

Introduction	20
General Program Planning Model	21
<i>Needs Assessment</i>	22
<i>Priority Setting</i>	23
<i>Goals and Objectives</i>	26

<i>Methods and Implementation</i>	27
<i>Evaluation</i>	32
<i>Budget</i>	34
PRECEDE-PROCEED Model	36
<i>Phases of the PRECEDE-PROCEED Model</i>	36
<i>The PRECEDE-PROCEED Model in Action</i>	39
PATCH Model	40
<i>Phases of the PATCH Model</i>	40
APEX-PH Model	41
<i>Phases of the APEX-PH Model</i>	41
<i>The APEX-PH Model in Action</i>	42
MAPP Model	42
<i>Phases of the MAPP Model</i>	43
<i>The MAPP Model in Action</i>	44
CDCynergy Model	45
<i>Phases of the CDCynergy Model</i>	45
Logic Models	46
<i>Key Components of Logic Models</i>	47
<i>Logic Models in Action</i>	48
Summary	49
Review Questions	49
Web Resources	50
References	51

CHAPTER 3 THEORY IN HEALTH PROMOTION 54

Introduction	56
Theoretical Foundations of Health Promotion	56
<i>Importance of Theory to Health Promotion</i>	56
<i>Conceptual Models in Health Promotion</i>	58
The Social Ecological Framework	59
<i>Application of the Social Ecological Framework</i>	60
Individual-level Theories	61
<i>The Health Belief Model</i>	61
<i>The Transtheoretical Model</i>	63
<i>The Theory of Reasoned Action</i>	67
<i>The Theory of Planned Behavior</i>	68
<i>Behavior Analysis</i>	69
Interpersonal-level Theories	70
<i>Social Cognitive Theory</i>	70
<i>Social Support</i>	72
<i>Social Influence</i>	73
Organizational-level Theories	75
<i>Chronic Care Model</i>	75
<i>Diffusion of Innovations</i>	77

Community-level Theories	78
<i>Information Processing Paradigm</i>	79
<i>Social Marketing</i>	80
<i>Structural Model of Health Behavior</i>	83
Special Considerations	85
<i>Resources</i>	85
Summary	86
Review Questions	86
Web Resources	88
References	88

PART 2 Health Specific Promotion 93

CHAPTER 4 NUTRITION 94

Introduction	95
Nutrients in Food	96
<i>Basic Physiological Functioning</i>	96
<i>Dietary Patterns</i>	97
The Role of Healthy Eating Programs	98
Dietary Intake	100
Factors That Influence Dietary Behaviors	102
<i>Individual-Level Influences on Dietary Behaviors</i>	103
<i>Interpersonal-Level Influences on Dietary Behaviors</i>	107
<i>Organizational-Level Influences on Dietary Behaviors</i>	112
<i>Community-Level Influences on Dietary Behaviors</i>	116
<i>Policy-Level Influences on Dietary Behaviors</i>	122
Summary	126
Review Questions	131
Web Resources	132
References	133

CHAPTER 5 PHYSICAL ACTIVITY 139

Introduction	140
Types of Physical Activity	141
Assessing Physical Activity	142
<i>Subjective Measurement</i>	142
<i>Objective Measurement</i>	143
<i>Direct Observation</i>	145
Physical Activity and Health	145
<i>Mortality</i>	145
<i>Cardiovascular Health</i>	145
<i>Metabolic Health and Obesity</i>	146
<i>Muscular and Skeletal Health</i>	147

<i>Mental Health</i>	147
<i>Sedentary Behavior</i>	148
<i>Recommendations and Guidelines</i>	149
Physical Activity Interventions	149
<i>Individual-level Interventions</i>	149
<i>Interpersonal-Level Interventions</i>	152
<i>Environmental-Level Interventions</i>	154
Summary	156
Review Questions	159
Web Resources	161
References	161

CHAPTER 6 TOBACCO 167

Introduction	168
History of Tobacco Use	168
<i>Current Tobacco Use Trends</i>	169
<i>History of Tobacco Advertising</i>	170
Factors Associated with Tobacco Use	171
Health Effects of Tobacco Use	172
Overview of Tobacco Control Interventions	174
<i>Individual Interventions</i>	175
<i>Interpersonal Interventions</i>	176
<i>Organizational Interventions</i>	177
<i>Community Interventions</i>	178
<i>Public Policy Interventions</i>	181
<i>Multilevel Tobacco Control Interventions</i>	184
<i>Effectiveness of Tobacco Interventions</i>	186
<i>Special Considerations for Tobacco Control Interventions</i>	187
Summary	188
Review Questions	189
Web Resources	190
References	190

CHAPTER 7 CHRONIC DISEASE MANAGEMENT 198

Introduction	199
Overview of Chronic Disease	199
<i>Historical Context of Disease Patterns</i>	200
Chronic Disease Management	207
<i>Frameworks for Chronic Disease Management</i>	207
<i>Chronic Disease Management at the Individual Level</i>	208
<i>Chronic Disease Management at the Interpersonal Level</i>	211
<i>Chronic Disease Management at the Organizational Level</i>	213
<i>Chronic Disease Management at the Community Level</i>	216
<i>Chronic Disease Management at the Policy Level</i>	218

Summary	222
Review Questions	223
Web Resources	224
References	225

CHAPTER 8 HUMAN IMMUNODEFICIENCY VIRUS AND SEXUALLY TRANSMITTED INFECTIONS 230

Introduction	231
HIV, AIDS, and STIs	232
<i>Other Routes of Exposure to HIV</i>	233
<i>The Global Health Impact of HIV and STIs</i>	234
Health Behavior Theories and Models Used to Guide HIV/STI Prevention Programs and Research	234
<i>Characteristics of Effective HIV-Prevention Interventions</i>	235
<i>Applying the Social Ecological Framework Model to HIV-Prevention Interventions</i>	236
<i>Improving Patient Antiretroviral Medication Adherence</i>	237
<i>Prevention of HIV and STI Transmission</i>	237
<i>Health Disparities in HIV and STIs</i>	240
<i>HIV and STI Global Health Policies</i>	241
<i>Global Health Challenges to Eliminating HIV and STI</i>	243
Summary	244
Review Questions	247
Web Resources	249
References	249

CHAPTER 9 TROPICAL INFECTIOUS DISEASE 252

Introduction	253
The Epidemiological Transition	253
Infectious Disease Control	254
<i>Diarrheal Diseases</i>	256
<i>Malaria and Dengue: A Tale of Two Mosquitoes</i>	256
<i>Challenges in Implementing Infectious Disease Control</i>	259
TDR Disease Portfolio	260
<i>Sleeping Sickness</i>	261
<i>Chagas Disease</i>	262
<i>Dengue and Dengue Hemorrhagic Fever</i>	262
<i>Helminths</i>	263
<i>Leishmaniasis</i>	264
<i>Leprosy</i>	265
<i>Lymphatic Filariasis</i>	266
<i>Malaria</i>	267
<i>Onchocerciasis (River Blindness)</i>	268
<i>Schistosomiasis</i>	268

<i>Tuberculosis (TB)</i>	270
Summary	271
Review Questions	271
Web Resources	273
References	273

PART 3 Health Promotion and Behavioral Science Research 277

CHAPTER 10 SOCIAL ECOLOGICAL FRAMEWORK AND HEALTH PROMOTION IN THE HEALTHY PEOPLE 2020 INITIATIVE 278

Introduction	280
Overview of Healthy People 2020	281
Tobacco Use	283
<i>Adult Prevalence</i>	284
<i>Adolescent Prevalence</i>	284
<i>Initiation</i>	285
<i>Cessation</i>	285
<i>Secondhand Smoke</i>	286
<i>Interventions That Use Incentives to Decrease Tobacco Use</i>	287
<i>Interventions That Control Access to Tobacco or Facilities Related to Tobacco Use</i>	289
<i>Interventions Using Media to Discourage Tobacco Use</i>	290
<i>Interventions That Reduce Smoking Initiation in Schools</i>	292
<i>Interventions to Regulate Tobacco Products</i>	293
Weight Status and Obesity	294
<i>Adult Prevalence</i>	295
<i>Youth Prevalence</i>	295
<i>Onset of Obesity</i>	295
<i>Weight Loss</i>	295
<i>Strategies to Reduce Overweight and Obesity</i>	296
Dietary Behavior	297
<i>Adult Prevalence</i>	298
<i>Initiation of Poor Dietary Pattern</i>	299
<i>Strategies to Improve Dietary Behavior</i>	300
<i>Physical Activity</i>	307
<i>Adult Prevalence</i>	308
<i>Youth Prevalence</i>	310
<i>Developmental Objectives for Active Transportation in Youth and Adults</i>	310
<i>Onset of Inactivity</i>	312
<i>Getting Sedentary People Active Again</i>	313

<i>Strategies to Improve Physical Activity</i>	313
Summary	317
Review Questions	319
Web Resources	321
References	321

CHAPTER 11 CONCLUSIONS 329

Introduction To Good Health Promotion Practice	329
The Importance of Theory	330
Transmissible Diseases	330
A Focus on Diseases With Modifiable Risk Factors For Chronic Diseases	332
<i>Tobacco</i>	332
<i>Nutrition</i>	333
<i>Physical Activity</i>	334
Musings on Challenges and Opportunities	334
<i>Challenges to Vaccination: The Polio Story</i>	335
<i>The Clean Water Story and Climate Change</i>	335
<i>The Increasing Sedentary Epidemic</i>	336
References	336
