ELSEVIER

CONTENTS

1 Success in Nursing School, 1

Qualifications and Preparation, 1

Ethics and Professionalism, 1

Challenges of Nursing School, 2

On Campus, 2

At the Hospital, 5

Setting Up for Success, 8

Organizing Your Time, 9

Study Skills, 12

Reading, 13

Using Ancillary Materials, 14

Taking Notes, 15

Recording Lectures, 15

Strengthening Computer Skills, 18

Joining a Study Group, 18

Obtaining Tutoring, 19

Taking an Online Course, 19

Doing Your Best on Tests, 21

Taking the National Council Licensure Examination, 27

Obtaining Licensure, 27

2 Getting the Most from the Clinical Experience, 28

Approaching the Clinical Experience, 28

Preparing for Clinical Patient Care, 28

Reviewing Skills for Patient Care, 30

Looking Up Medications, 30

Nursing Care Plans, 31

Nursing Diagnoses, 32

Interventions, 32

Rationales, 32

Listening to the Shift Report, 39

Preparing for Patient Teaching, 43

Organizing Your Workday, 43

Complying with HIPAA Requirements, 44

Reviewing Basic Communication, 45

Approaching the Patient, 49

Learning from the Staff, 49

Staying in the Good Graces of Your Instructor, 51

- Preventing Errors and Harm to Patients, 51
- Reviewing Documentation, 52
- Giving a Report, 54

Developing Professionalism, 54

- Appearance, 54
- Behavior, 58
- Verbalization, 59

Clinical Evaluation, 60

- Basic Competence, 60
- Clinical Written Work, 61
- Formal Evaluation, 61

3 Dealing with Stress, 63

Controlling Stress Levels, 63

- Set Priorities, 63
- Ask for Help, 63
- Tackle One Task at a Time, 64
- Exercise, 64
- Stop for 10 Minutes, 64
- Focus on Now, 64
- Change Your Perception, 65
- Practice Self-Affirmation, 65
- Become More Assertive, 65
- Find Humor, 65
- Refuel and Recharge, 65
- Know Your Internal Clock, 66
- Other Stress Remedies, 66

Stresses Unique to Nursing, 66

- Danger of Infection, 66
- Working with Patients Who Are Dying, 70
- High Acuity Level Patients, 71
- Special Patient Situations, 71
- Personal Safety, 74

Self-Assessment, 75

- Assessing Your Stress Level, 75
- Addressing Your Stress, 75

4 Continuing Your Education, 78

Taking the Next Step, 78

- Types of Programs, 78
- Returning Students, 78
- Differences in Training, 79
- Differences in Curriculum and Demands, 79
- Bringing Skills and Habits with You, 79
- Catching up with Generic Students, 80
- Role Transformation, 80

5 Clinical Quick Reference, 82

Communication, 82

- Prefixes and Suffixes Used in Medical Terms, 82
- Commonly Used Abbreviations, Symbols, and Notations, 83
- SBAR Communication Tool, 86
- Basic Phrases in English and Spanish, 86

Basic Principles of Nursing Care, 87

- The Nursing Process, 87
- Documentation, 89
- HIPAA Considerations for Nurses, 91
- Discharge, 91
- Standard Reference Materials, 92
- General Steps for All Procedures, 92
- Guidelines for Cast Care, 93

Assessment Quick Reference, 93

- Blood Pressure Parameters and Classifications, 93
- Neurologic Assessment, 94
- Fall Risk Factors, 96
- Fall Risk Assessment Scale, 96
- Pitting Edema Scale, 97
- Skin Pressure Points, 98
- Substance Abuse Screening—CAGE, 99
- Erikson's Stages of Development, 101
- Piaget's Cognitive Developmental Stages, 103
- Child Abuse and Neglect, 104
- Elder Abuse and Neglect, 104

Pain, 105

- The Joint Commission (TJC) Pain Standards, 105
- Focused Assessment for the Patient with Pain, 106
- Pain Rating Scales, 106
- Equianalgesic Doses of Opioids, 112

Basic Nursing Care, 113

- Routine Observation of Chest Tubes, 113
- Other Tips for Chest Tube Care, 113
- Assisting the Patient to Urinate, 113
- Relieving Flatulence (Gas), 114

Emergencies and Critical Care, 114

- Nursing Actions in Case of Fire—RACE, 114
- Calling a "Code," 114
- Evaluating an ECG Rhythm Strip, 114
- Telemetry Monitoring, 115
- Care and Observation during a Seizure, 116

Measurements and Conversions, 117

- Temperature, 117
- Time, 118
- Apothecary and Metric Equivalents, 118

Common Laboratory Test Values, 118

- Complete Blood Count (CBC), 119
- Routine Urinalysis, 120
- Laboratory Values for Chemistry Panel Test (SMAC), 120
- Normal and Abnormal Values for Arterial Blood Gases (ABGs), 121
- Reference Values for Therapeutic Drug Monitoring, 121
- Therapeutic Monitoring of Anticoagulation Therapy, 123

Medication Administration, 123

- Relevant Abbreviations, 123
- The Joint Commission's Lists of Dangerous Abbreviations, Acronyms, and Symbols, 123
- Six Rights of Medication Administration, 124
- Six Responsibilities for Medication Administration, 124
- Safety Guidelines to Prevent Medication Errors, 125
- Check Those Lab Tests!, 126
- Choosing the Correct Needle Size, 127
- Sites for Intramuscular (IM) and Subcutaneous (Subcut) Injections, 128
- Common Sites for Intradermal Injections, 130
- Needle-Skin Angle for Injection, 130
- Dosage and Solution Calculation Formulas, 131
- Major Drug Categories by Generic Name Endings, 132
- High-Alert Medications, 133
- Insulins, 134
- Digitalis Therapy, 136
- Steroid (Cortisone) Therapy, 137
- Anticoagulant Therapy, 138

Intravenous Therapy, 139

- Calculating Intravenous Flow Rates, 139
- Intravenous Flow Rate Chart, 140
- Calculation of Intravenous Intake, 141
- Intravenous Site Placement, 141
- Characteristics of Commonly Used Intravenous Fluids, 142
- Setting up a "Piggyback" Minibag Medication, 143
- Intravenous Drug Compatibility, 144
- Intravenous Pumps: Tips for Use and Troubleshooting, 144
- Guidelines for Monitoring a Blood Transfusion, 145
- Principles for Administration of Total Parenteral Nutrition, 146

Perioperative Care, 146

- Preparing the Preoperative Patient for Surgery, 146
- Safety Guidelines for Surgery, 147
- Care and Assessment of the Postoperative Patient on Return to the Clinical Unit, 148
- Guidelines for Traction, Pin, or Fixator Care, 149
- Postoperative Exercises to Prevent Complications, 149
- Postoperative Hip Replacement Assessment, 150

What to Do before You Call the Physician, 151

Perinatal Care, 152

- Postpartum Assessment Guide, 152

- Assisting the New Mother to Breastfeed, 152
- Estimation of Lochia Volume, 153
- Fundus Massage, 153
- Apgar Scoring, 153
- Umbilical Cord Care, 154
- Guidelines for Attending Clinical in a Psychiatric Facility, 154**
- Symptoms of Post-Traumatic Stress Syndrome (PTSD), 154
- Caring for a Patient with Alzheimer's or Other Dementia, 155**
- Nutrition, 155**
- Rehydration Formula for Dehydration from Vomiting and Diarrhea, 155
- Alternative Seasoning Mix (*Makes ¼ Cup*), 155
- A Guide to Daily Food Choices, 156
- Choice Equivalents within Each Food Group, 157
- Key Recommendations, 157
- Body Mass Index, 158
- Therapeutic Diets, 158
- American Heart Association Guidelines for a Heart-Healthy Diet and Lifestyle, 161
- Low-Fat Diet, 162
- DASH (Dietary Approaches to Stop Hypertension) Eating Plan, 162
- Sodium-Restricted Diet, 164
- High-Fiber Diet, 164
- High-Calorie, High-Protein, High-Vitamin Diet, 164
- Gluten-Free Diet, 165
- Lactose-Free Diet Foods to Avoid, 167
- Principles for Administering Enteral (Tube) Feedings, 167
- Giving Medication via Nasogastric or Small-Bore Tube, 168

6 Online Resources, 169

- Resources for Nursing Students, 169**
- Associations, 172**
- Drugs and Nutrition Resources, 174**
- Continuing Education, 175**
- Disease Information, 175**
- Patient Education, 177**
- Post-Traumatic Stress Disorder, 177**
- Sleep Problems, 177**
- Spine Health and Back Problems, 177**
- Wound Care, 177**
- Common Search Engines, 177**
- Help Lines and Links, 178**
- Cumulative Index to Nursing and Allied Health, 178**
- English-as-Second Language Resources for Nursing Students, 178**
- Evaluation of Internet Resources, 178**

Medical and Nursing Journals, 178

National Center for Health Statistics, 178
