About the companion website x

Part 1

- 1 Introduction: the setup of this book and how to use it 2

Part 2

Principles of skills 3

- 2 Care planning and the nursing process 4
3 Communication – fundamentals 6
4 Record keeping 8
5 Communication – de-escalation 10
6 Communication – difficult conversations 12
7 Informed consent 14
8 Privacy and dignity 16

Part 3

Mandatory skills 19

- 9 Moving and handling 20
10 Moving and handling: turning in bed, transfers, and hoisting 22
11 Basic life support 24
12 The choking patient; the recovery position 26
13 Infection control 28
14 Medicine management 30
15 Injection technique 32
16 National early warning score (NEWS) track and trigger system 36

Part 4

Neurological skills 39

- 17 Assessing level of consciousness 40
18 Assessing pupil reaction and limb strength 44
19 Assessing cognition 46
20 Pain assessment 48
21 Neurovascular assessment 50
22 Assessing and managing seizures 52

Part 5

Respiratory skills 55

- 23 Assessing and managing the airway 56
24 Respiratory assessment 58
25 Monitoring oxygen saturations 60
26 Arterial blood gas analysis 62
27 Chest auscultation 64
28 Peak expiratory flow rate 66

- 29 Administering oxygen 68
- 30 Nebulisers and inhalers 70
- 31 Tracheostomy care 72
- 32 Chest drain management 74

Part 6

Cardiovascular skills 77

- 33 Taking a pulse 78
- 34 Blood pressure 80
- 35 Temperature assessment 82
- 36 Non-invasive circulatory assessment 84
- 37 Central venous pressure monitoring 86
- 38 Electrocardiogram 88

Part 7

Gastrointestinal skills 91

- 39 Nutritional screening 92
- 40 Supporting eating and drinking 94
- 41 Nasogastric tube insertion 96
- 42 Enteral feeding 98
- 43 Management of diarrhoea 100
- 44 Management of constipation 102
- 45 Administration of suppositories and enemas 104
- 46 Stoma care 106

Part 8

Genitourinary skills 109

- 47 Urinalysis 110
- 48 Continence assessment 112
- 49 Urinary catheterisation 114
- 50 Catheter care 116
- 51 Catheter removal 118

Part 9

Musculoskeletal skills 121

- 52 Assessing tone and ability to mobilise 122
- 53 Venous thromboembolism assessment and risk reduction 124
- 54 Anti-embolic stockings 126
- 55 Musculoskeletal minor injuries: assessment and treatment 128
- 56 Falls – prevention, assessment and management 130
- 57 Stabilisation: neck collar 132
- 58 Care of the patient with spinal cord injuries – log roll 134

Part 10

Integumentary skills 137

- 59 Personal hygiene 138
- 60 Personal hygiene – mouth and hair care 140
- 61 Pressure ulcer – prevention and management 142
- 62 Venous ulcer assessment 144
- 63 Wound dressing using aseptic non-touch technique (ANTT) 146
- 64 Burns management 148
- 65 Care after death 150
- 66 Management of surgical drains 152
- 67 Suture and staple removal 154

**Part 11****Endocrine skills 157**

68 Capillary blood glucose monitoring 158

**Part 12****Circulatory Skills 161**

69 Venepuncture 162

70 Cannulation 164

71 Intravenous fluid therapy 166

72 Fluid balance monitoring 170

73 Blood transfusions 172
