PART I Foundations of Progressive and Critical Care Nursing

Chapter 1 Professional Caring and Ethical Practice 1

Anna Dermenchyan, MSN, RN, CCRN-K, CPHQ

American Association of Critical-Care Nurses Mission, Vision, and Values (AACN, 2020 a,b,c) 1

Mission 1

Vision 2

Values 2

Synergy of Caring 2

Key Responsibilities of Registered Nurses (American Nurses Association [ANA], 2020) 2

What Acute and Critical Care Nurses Do (AACN, 2019) 2

The Environment of Progressive and Critical Care Nurses (AACN, 2019) 2

The AACN Synergy Model for Patient Care 5

AACN Synergy Model for Patient Care (AACN, 2020a,b,c) 5

Origin of the Synergy Model 5

Purpose 5

Overview of the Synergy Model 5

Application of the Synergy Model 15

Family Presence: Visitation in the Adult ICU (AACN Practice Alert, 2016) 16

Healthy Work Environment Standards (AACN, 2016) 17

General Legal Considerations Relevant to Critical Care Nursing Practice 17

National Governing Bodies 17

State Nurse Practice Acts (Russell, 2017) 17

Scope of Practice 18

Standards of Care 18

Certification in a Specialty Area 19

Professional Liability 19

Documentation 22

Good Samaritan Laws 24

Ethical Clinical Practice 24

Foundation of Ethical Nursing Practice 24

Emergence of Clinical Ethics 24

Standard Ethical Theory 25

Ethical Principles (ANA, 2015b) 25

Common Ethical Distinctions 26

Advance Care Planning 27

The Law in Clinical Ethics (Department of Health & Human Services, 2020) 29

Clinical Ethics Assessment 34

Nurse's Role as Patient Advocate and Moral Agent 36

Chapter 2 Psychosocial Aspects of Critical Care 38

Deborah Chapa, PhD, ACNP-BC, FAANP, ACHPN; Bimbola Fola Akintade, PhD, MBA, MHA, ACNP-BC, NEA-BC, FAANP

Systemwide Elements 38

Review of Psychosocial Concepts 38

Assessment 43

Pain, Agitation, Delirium, Immobility and Sleep Disruption (PADIS) (Devlin et al., 2018)	44
Sleep Deprivation	46
ASD and PTSD	46
Delirium (Acute Confusional State)	48
Powerlessness	50
Anxiety	51
Depression	53
Substance Misuse, Dependence, and Withdrawal	55
Aggression and Violence	57
Suicide	59
Dying Process and Death	61
PART II Critical Care of Patients with Issues Affecting Specific Body Systems	
Chapter 3 Pulmonary System	63
<hr/>	
<i>Daniel N. Storzer, DNP, ACNPC, ACNP-BC, CNRN, CCRN, CCEMT-P, FCCP, FCCM</i>	
Systemwide Elements	63
Anatomy and Physiology Review	63
Assessment	85
Diagnostic Studies	105
Patient Care	109
Specific Patient Health Problems	136
Acute Respiratory Failure (ARF)	136
Chest Trauma	139
Acute Respiratory Distress Syndrome (ARDS)	139
Vaping	141
Transfusion-Related Lung Injury	142
Pulmonary Embolism	142
Chronic Obstructive Pulmonary Disease (COPD)	146
Asthma and Status Asthmaticus	150
Pneumonia	153
Ventilator-Associated Pneumonia and Event	157
Drowning	158
Pulmonary Problems in Surgical/Thoracic Surgery Patients	160
Air Leak Syndromes	162
Acute Pulmonary Inhalation Injuries	163
Neoplastic Lung Disease	163
Pulmonary Fibrosis	167
Obstructive Sleep Apnea	168
End-Stage Pulmonary Conditions: Lung Transplantation	169
Chapter 4 Cardiovascular System	176
<hr/>	
<i>Andrea Efre, DNP, ARNP, ANP, FNP and Bryan Boling, DNP, AG-ACNP, CCRN-CSC, CEN</i>	
Systemwide Elements	176
Anatomy and Physiology Review	176
Assessment	190
Diagnostic Studies	201
Patient Care	232
Specific Patient Health Problems	235
Acute Coronary Syndrome	235
Acute Myocardial Infarction—ST-Segment Elevation Myocardial Infarction	235

Non—ST Elevation Myocardial Infarction (See Acute Coronary Syndrome (NSTEMI- Acute Coronary Syndrome and Unstable Angina))	247
Chronic Stable Angina Pectoris	251
Coronary Artery Disease	253
Heart Failure	257
Pericardial Disease	266
Myocarditis	271
Infective Endocarditis	274
Cardiomyopathy	280
Cardiac Rhythm Disorders	286
Mitral Regurgitation	301
Mitral Stenosis	304
Aortic Regurgitation	307
Aortic Stenosis	310
Atrial Septal Defect	313
Ventricular Septal Defect	316
Patent Ductus Arteriosus	319
Coarctation of the Aorta	322
Hypertensive Crises	325
Aortic and Peripheral Arterial Disease	330
Shock	337
Mechanical Circulatory Support Devices	344
End-Stage Heart Disease: Cardiac Transplantation	350
Cardiac Trauma	353

Chapter 5 **Neurologic System** 354

Patricia A. Blissitt, PhD, ARNP-CNS, CCRN, CNRN, SCRN, CCNS, CCM, ACNS-BC

Systemwide Elements	354
Anatomy and Physiology Review	354
Assessment	390
Diagnostic Studies	406
Patient Care	408
Specific Patient Health Problems	417
Increased Intracranial Pressure or Intracranial Hypertension	417
Stroke	426
Brain Tumor	455
Spinal and Spinal Cord Tumors	459
Intracranial Infections	461
Neuromuscular/Autoimmune Disease	468
Seizure Disorders	476
Encephalopathy	483
Coma	486
Brain Death	487
Neurosurgical Procedures	488

Chapter 6 **Renal System** 490

Bryan Boling, DNP, AG-ACNP, CCRN-CSC, CEN

Systemwide Elements	490
Anatomy and Physiology Review	490
Assessment	504

Diagnostic Studies	507
Patient Care	511
Specific Patient Health Problems	520
Renal Trauma	520
Acute Kidney Injury	520
Chronic Kidney Disease	534
Electrolyte Imbalances—Potassium Imbalance: Hyperkalemia	540
Electrolyte Imbalances—Potassium Imbalance: Hypokalemia	546
Electrolyte Imbalances—Sodium Imbalance: Hypernatremia	547
Electrolyte Imbalances—Sodium Imbalance: Hyponatremia	549
Electrolyte Imbalances—Calcium Imbalance: Hypercalcemia	551
Electrolyte Imbalances—Calcium Imbalance: Hypocalcemia	553
Electrolyte Imbalances—Phosphate Imbalance: Hyperphosphatemia	554
Electrolyte Imbalances—Phosphate Imbalance: Hypophosphatemia	556
Electrolyte Imbalances—Magnesium Imbalance: Hypermagnesemia	557
Electrolyte Imbalances—Magnesium Imbalance: Hypomagnesemia	558
Rhabdomyolysis	559
End-Stage Renal Condition: Renal Transplant	560
Chapter 7 Endocrine System	564
<i>Jennifer MacDermott, MS, RN, ACNS-BC, NP-C, CCRN</i>	
Systemwide Elements	564
Anatomy and Physiology Review	564
Hypothalamus	565
Pituitary Gland (Also Called Hypophysis)	565
Thyroid Gland	568
Parathyroid Glands	568
Adrenal Glands	569
Pancreas	570
Pineal Gland and Thymus Gland	571
Gonadal Hormones (Testosterone, Estrogen, Progesterone)	571
Assessment	571
Diagnostic Studies	574
Patient Care	575
Specific Patient Health Problems	576
Altered Glucose Metabolism	576
Altered Antidiuretic Hormone Production	584
Altered Thyroid Hormone Production	587
Acute Adrenal Insufficiency or Crisis	591
Acute Hyperparathyroidism and Hypoparathyroidism	592
Chapter 8 Hematologic and Immunologic Systems	593
<i>Nicole Brumfield, DNP, APRN, FNP-BC, AG-ACNP-BC</i>	
Systemwide Elements	593
Anatomy and Physiology Review	593
Assessment of Hematologic and Immunologic Systems	597
Diagnostic Studies	599
Patient Care	602
Specific Patient Health Problems	604

Thrombocytopenia	604
Disseminated Intravascular Coagulation	606
Medication-Induced Coagulopathy	608
Thromboembolic Disorders	611
Anemia	613
Sickle Cell Anemia	616
Neutropenia	618
Acute Leukemia	619
Malignant Pericardial Effusion	621
Hematopoietic Stem Cell Transplantation	622
Organ Transplant Rejection	624
Human Immunodeficiency Virus Infection	626
Anaphylactic Reaction	629
Chapter 9 Gastrointestinal System	631
<i>Patricia Radovich, PhD, CNS, FCCM</i>	
Systemwide Elements	631
Anatomy and Physiology Review	631
Accessory Organs of Digestion (Fig. 9.4)	639
Patient Assessment	644
Diagnostic Studies	648
Patient Care	650
Specific Patient Health Problems	652
Abdominal Trauma	652
Bowel Infarction (Obstruction, Perforation)	652
Functional Gastrointestinal Disorders (Obstruction, Motility [Ileus, Diabetic Gastroparesis, GERD, Inflammatory Bowel Syndrome])	654
Gastrointestinal Infections (<i>Clostridium Difficile</i>)	656
Abdominal Compartment Syndrome	657
Acute Abdomen	659
Acute Liver Failure	661
Gastrointestinal Bleeding	663
Gastrointestinal Bariatric Surgery	667
Chronic Liver Failure: Decompensated Cirrhosis	667
Carcinoma of the Gastrointestinal Tract	672
Acute Pancreatitis	675
Hepatitis	678
End-Stage Gastrointestinal System Condition: Liver Transplantation	682
Nutritional Support in the Critically Ill Patient	683

PART III **Critical Care of Patients with Multisystem Issues**

Chapter 10 **Sepsis and Septic Shock** 686

Diane McLaughlin, DNP, AGACNP-BC, CCRN

Systemwide Elements	686
Anatomy and Physiology Review	686
Assessment	698
Patient Care	700

Chapter 20 Pain	860
<i>Tonya Sawyer-McGee, BSN, MSN, MBA, RN, DNP, ACNP-BC</i>	
Systemwide Elements	860
Anatomy and Physiology Review	860
Background	865
Assessment	869
Patient Care	873
Patient Education	880
Specific Clinical Problems Related to Pain Therapy	885
Specific Patient Health Problems	886
Chapter 21 Palliative and End-of-Life Care	888
<i>Clareen Wiencek, PhD, RN, ACNP, ACHPN, FAAN</i>	
Systemwide Elements	888
Concept Review	888
Assessment for Palliative Care, Hospice, or End-of-Life Care Services	893
Patient Care	893
Transitioning Goals of Care to End-of-Life (Box 21.3)	895
Additional Considerations (See Ch. 2, Psychosocial Aspects of Critical Care)	897
Chapter 22 Perioperative Care	898
<i>Jan Odom-Forren, PhD, RN, CPAN, FASPAN, FAAN and Denise O'Brien, DNP, RN, ACNS-BC, CPAN, CAPA, FASPAN, FCNS, FAAN</i>	
Systemwide Elements	898
Anatomy and Physiology Review	898
Assessment	899
Patient Care	901
Initial Arrival in Postanesthesia Care Unit or Intensive Care Unit	914
Ongoing Postanesthesia Care—Emergence from Anesthesia	914
Specific Patient Health Problems	917
Index	923
