EDITORIAL

- 139 **Electronic Fetal Monitoring Revisited**
Nancy K. Lowe

LETTERS

- 140 **On "A Call for Clarity in Infant Breast and Bottle-Feeding Definitions for Research"**
Miriam H. Lobbok
- 142 **On "Neonatal Neurobehavioral Organization after Exposure to Maternal Epidural Analgesia in Labor"**
Michele A. Romano

THEN & NOW

- 144 **Breast Care During Pregnancy**
The authors compare the principles of breast care during pregnancy from 1972 with contemporary research-based information.
Teresa S. Johnson and Karen Strube

CONTEMPORARY PERSPECTIVES

- 149 **Early Hospital Discharge in Maternal and Newborn Care**
The author describes the historic precedence of early discharge practices and the debate regarding length of stay for new mothers and newborns in the United States.
Anne M. Fink

IN REVIEW

- 157 **A Review of Prenatal Home-Visiting Effectiveness for Improving Birth Outcomes**
The authors conducted this review to determine the effectiveness of prenatal home visiting for improving prenatal care utilization and preventing preterm birth and low birth weight.
L. Michele Issel, Sarah G. Forrestal, Jaime Slaughter, Anna Wiencrot, and Arden Handler

RESEARCH

- 166 **Perspectives of Hospital-Based Nurses on Breastfeeding Initiation Best Practices**
This research indicates a significant disparity between nurses' intention to support breastfeeding and their knowledge of breastfeeding initiation best practices.
Jennifer Weddig, Susan S. Baker, and Garry Auld

- 179 **Predictors of Breastfeeding Exclusivity in a WIC Sample**
The authors found that only 23% of low-income women who received WIC services breastfed exclusively.
Sandi Tenfelde, Lorna Finnegan, and Pamela D. Hill

- 190 **Positive Effect of Kangaroo Mother Care on Long-Term Breastfeeding in Very Preterm Infants**
The authors discuss the positive effects of Kangaroo Mother Care on the process of breastfeeding.
Renée Flacking, Uwe Ewald, and Lars Wallin

- 198 **The Distribution of Weight-Related Risks Among Low-Income Women During the First Postpartum Year**
Based on this research, the authors conclude that the proportion of African American and Hispanic women with weight-related risk remains high at 12 months postpartum.
Lorraine O. Walker, Eileen R. Fowles, and Bobbie Sue Sterling

- 206 **Victimization and Revictimization Among Women of Mexican Descent**
The authors describe the experiences of women of Mexican descent, born in Mexico or the United States, who live with intimate partner abuse.
Nora Montalvo Liendo, Diane W. Wardell, Joan Engebretson, and Belinda M. Reininger
