Childbearing Families & Newborns*

September/October 2015  
Volume 44 • Number 5

## EDITORIAL

The Contested Terrain of Focus Groups,  
Lived Experience, and Qualitative  
Research Traditions

## RESEARCH

An Institutional Ethnography of Nurses'  
Support of Breastfeeding on the Night  
Shift

Identification of Postpartum Depression  
in an Online Community

Quality of Life and Body Mass Index  
in Overweight Adult Women with  
Polycystic Ovary Syndrome During a  
Lifestyle Modification Program

The Psychometric Properties of the Midlife  
Women's Symptom Index

## CASE REPORT

Case Study of Intrapartum Antibiotic  
Prophylaxis and Subsequent Postpartum  
Beta-Lactam Anaphylaxis

## CONTEMPORARY PERSPECTIVES

Why Infant Formula Samples Pose a Risk  
to Health Care Providers, Hospitals,  
and Patients

## SPECIAL REPORT

Current Resources for Evidence-Based  
Practice, September/October 2015

## IN FOCUS: PREPARING LEADERS IN MATERNAL-CHILD NURSING

### IN FOCUS EDITORIAL

Developing the Next Generation of  
Leaders in Maternal-Child Health Nursing

### IN FOCUS

Preparing Leaders in Maternal-Child  
Health Nursing

Implementing the Use of Chemical-Free  
Products in a Perinatal Unit

A Continuous Quality Improvement Project  
to Implement Infant-Driven Feeding as  
a Standard of Practice in the Newborn/  
Infant Intensive Care Unit

### IN FOCUS CNE

A Nurse Leadership Project to Improve  
Health Literacy on a Maternal-Infant Unit

### IN FOCUS

Developing a Systematic Approach  
to Obstetric Emergencies

### AWHONN POSITION STATEMENT

Fetal Heart Monitoring

Mood and Anxiety Disorders in Pregnant  
and Postpartum Women

AWHONN  
PROMOTING THE QUALITY OF  
NURSING AND NURSING

## EDITORIAL

### 565 The Contested Terrain of Focus Groups, Lived Experience, and Qualitative Research Traditions

The use of theoretical constructs in qualitative research is described in this guest editorial.

*Jacqueline Jones*

## RESEARCH

### 567 An Institutional Ethnography of Nurses' Support of Breastfeeding on the Night Shift

In this qualitative study, three themes described nurses' support of breastfeeding on the night shift: *Competing Priorities, Incongruent Expectations, and Influential Institutional Structures*.

*Jane S. Grassley, Manda Clark, and Joyce Schleis*

### 578 Identification of Postpartum Depression in an Online Community

The authors determined that internet-based screening for postpartum depression may be a feasible alternative to face-to-face visits with health care providers.

*Dominique Teaford, Deepika Goyal, and Susan G. McNeish*

### 587 Quality of Life and Body Mass Index in Overweight Adult Women with Polycystic Ovary Syndrome During a Lifestyle Modification Program

Overweight adult women with polycystic ovary syndrome should be encouraged to follow a lifestyle modification program in order to increase health related quality of life.

*Veerle De Frène, Lesley Verhofstadt, Jan Lammertyn, Isabelle Stuyver, Ann Buyssse, and Petra De Sutter*

### 600 The Psychometric Properties of the Midlife Women's Symptom Index

The Midlife Women's Symptom Index can be used to help health care providers accurately assess symptoms of menopause of midlife women from different racial/ethnic backgrounds.

*Youjeong Kang, Young-Ran Han, Sun Ju Chang, Wonsik Chee, and Eun-Ok Im*

## CASE REPORT

### 610 Case Study of Intrapartum Antibiotic Prophylaxis and Subsequent Postpartum Beta-Lactam Anaphylaxis

The authors describe risk factors for penicillin and beta-lactam allergy and anaphylaxis, discuss treatment of anaphylaxis, and describe nursing implications.

*Mary Ann Stark, Mary Frances Ross, Wendy Kershner, and Kimberly Searing*

## CONTEMPORARY PERSPECTIVES

### 618 Why Infant Formula Samples Pose a Risk to Health Care Providers, Hospitals, and Patients

The author argues that the practice of distributing infant formula samples to new mothers prior to hospital discharge should be discontinued due to potential unwanted side effects.

*Marsha Walker*

## SPECIAL REPORT

### 624 Current Resources for Evidence-Based Practice, September/October 2015

A review of new resources to support the provision of evidence-based care for women and infants.

*Nicole S. Carlson*

**IN FOCUS: PREPARING LEADERS IN  
MATERNAL-CHILD NURSING**

**IN FOCUS EDITORIAL**

**631 Developing the Next Generation of Leaders in  
Maternal-Child Health Nursing**

The guest editor introduces the articles in this series.  
*Karen H. Morin*

**IN FOCUS**

**633 Preparing Leaders in Maternal-Child Health  
Nursing**

The authors describe the Maternal-Child Health Nurse Leadership Academy (MCH NLA), which was created by Sigma Theta Tau International Honor Society of Nursing in partnership with Johnson & Johnson.

*Karen Morin, Leigh Small, Diane L. Spatz, Julie Solomon, Laura Lessard, and Sarah Williams Leng*

**644 Implementing the Use of Chemical-Free Products in  
a Perinatal Unit**

Nurses can reduce infant exposure to toxins by providing chemical free hygiene products, sharing research about negative chemical effects, and teaching parents to read labels.

*Anne Brower, Lisa Trefz, and Catherine Burns*

**654 A Continuous Quality Improvement Project to  
Implement Infant-Driven Feeding as a Standard of  
Practice in the Newborn/Infant Intensive Care Unit**

The results of this quality improvement project demonstrated that neonates who are fed according to cues can become successful oral feeders and can be safely discharged home regardless of gestational age or diagnosis.

*Kimberly A. Chrupcala, Taryn M. Edwards, and Diane L. Spatz*

**IN FOCUS CNE**

**665 A Nurse Leadership Project to Improve Health  
Literacy on a Maternal-Infant Unit**

**CNE**

This project helped patients to improve health literacy, which resulted in improved patient satisfaction with nurse communication and preparation for hospital discharge.

*Reetta Stikes, Katheryn Arterberry, and M. Cynthia Logsdon*

**IN FOCUS**

**677 Developing a Systematic Approach to Obstetric  
Emergencies**

The authors describe a continuous quality improvement project designed to increase nurses' confidence and competence during obstetric emergencies.

*Meredith Green, Carla Rider, David Ratcliff, and Barbara C. Woodring*
