EDITORIAL

Differentiating the Generation of Knowledge from the Application of Knowledge

Faculty expertise in knowledge application is needed to guide students in doctorate of nursing practice programs in the development of their clinical inquiry capstone projects.

Kathie Records

LETTER

In Support of Equitable Infertility Health Insurance

Comments on the rationale for insurance coverage of infertility treatment.

Patricia E. Hershberger and Eleanor Lowndes Stevenson

EXPERT OPINION

Standardized Severe Maternal Morbidity Review: Rationale and Process

An interdisciplinary leadership group recommends a standardized review process to improve institutional obstetric safety and reduced severe morbidity and mortality among pregnant and recently pregnant women.

Sarah J. Kilpatrick, Cynthia Berg, Peter Bernstein, Debra Bingham, Ana Delgado, William M. Callaghan, Karen Harris, Susan Lanni, Jeanne Mahoney, Elliot Main, Amy Nacht, Michael Schellpfeffer, Thomas Westover, and Margaret Harper

RESEARCH

The Influence of Early-Term Birth on NICU Admission, Length of Stay, and Breastfeeding Initiation and Duration

In these national data, early-term infants had higher risks of NICU admission, non-initiation of breastfeeding, and being breastfed for fewer than 4 weeks.

Debra V. Craighead and R. K. Elswick Jr.

422 Birth Outcomes of Hispanic Women and Risks or Strengths Associated with Ethnicity and Texas Border Residence

The risk of inadequate or excessive gestational weight gain (GWG) was not associated with being a border resident, although Hispanic women were at increased risk of inadequate GWG.

Lorraine O. Walker, Hsiu-Rong Cheng, and Adama Brown

435 Effects of the 2011 Flood in Thailand on Birth Outcomes and Perceived Social Support

Being displaced during pregnancy due to this widespread, natural disaster affected fetal growth rather than length of gestation with higher social support ameliorating the effect.

Nathananporn Sanguanklin, Barbara L. McFarlin, Chang Gi Park, Carmen Giurgescu, Lorna Finnegan, Rosemary White-Traut, and Janet L. Engstrom

445 Barriers to Optimal Social Support in the Postpartum Period

Significant barriers to social support were availability and cost of child care, demands of infant care, changing personal priorities, transience, and availability of family.

Jennifer L. Barkin, Joan R. Bloch, Kristina C. Hawkins, and Tiffany Stanfill Thomas

455 Contraceptive Use among Low-Income Women Living in Medically Underserved Neighborhoods

The majority of these low-income women either did not use contraceptives or used the least effective methods.

Adejoke B. Ayoola, Gail L. Zandee, Emily Johnson, and Kendra Pennings

465 Exploring the Association between Maternal Mood and Self-Reports of Sleep during the Perinatal Period

Poor sleep parameters were associated with a low perceived ability to cope practically and emotionally with motherhood-related issues.

Soledad Coo, Jeannette Milgrom, Peter Kuppens, Pauline Cox, and John Trinder
