EDITORIAL

331 Birth Settings in America: Outcomes, Quality, Access, and Choice

This new report from the National Academies of Sciences, Engineering, and Medicine provides 12 directions for nurses and midwives to make childbirth safer for all women in all settings.

Nancy K. Lowe

CRITICAL COMMENTARY

336 Why Nurses Are Essential to Research on Birth Outcomes in the United States

Nurses who provide maternity and perinatal care are uniquely positioned to conduct research on birth outcomes in the United States.

Lori L. Trego

REVIEW

348 Integrative Review of Pregnancy and Birth Outcomes After Exposure to a Hurricane

Hurricane exposure was associated with pregnancy complications, preterm birth, cesarean birth, labor and birth complications, and abnormal newborn conditions.

Noelene K. Jeffers and Nancy Glass

RESEARCH

361 Smoking Status and Symptoms of Depression During and After Pregnancy Among Low-Income Women

Results showed a significant correlation between smoking and positive depression screening results in late pregnancy and 12 months after childbirth.

Ashley M. Jones, Lisa Carter-Harris, Deborah Stiffler, Jonathan T. Macy, Lisa K. Staten, and Carol Shieh

373 Knowledge of and Perceived Competence in Trauma-Informed Care and Attitudes of NICU Nurses Toward Mothers of Newborns With Neonatal Abstinence Syndrome

Improving knowledge and competence in trauma-informed care for mothers of newborns with neonatal abstinence syndrome can influence NICU nurses' judgmental attitudes.

Taghreed N. Salameh and Barbara Polivka
