## EDITORIAL

### 1 JOGNN's 50<sup>th</sup> year

During 2021, the editors and Editorial Advisory Board celebrate the publication of JOGNN's 50<sup>th</sup> volume.

*Nancy K. Lowe*

## REVIEWER ACKNOWLEDGMENT

### 4 2020 JOGNN Reviewers

## REVIEWS

### 6 Meta-Synthesis of the Needs of Women Cared for by Midwives During Childbirth in Hospitals

In this meta-synthesis the authors define 14 needs of women that midwives should meet during hospitalization for childbirth.

*Gloria Anderson, Maurizio Zega, Fabio D'Agostino, Maria Luisa Rega, Sofia Colaceci, Gianfranco Damiani, Rosaria Alvaro, and Antonello Cocchieri*

### 20 Qualitative Interpretive Metasynthesis of Parents' Experiences of Perinatal Loss

Perinatal loss can be a transformative and paradoxical event for parents, who require ongoing, supportive, patient-centered care.

*Shandeigh N. Berry, Tara Marko, and Gail Oneal*

## RESEARCH

### 30 Women Construct Their Birth Narratives and Process Unplanned Cesarean Births Through Storytelling

It is important to understand the perceptions of childbearing women and develop strategies to help them construct positive birth narratives.

*Mary Colleen Simonelli, Susan Gennaro, Caitlin O'Connor, and Louise T. Doyle*

### 40 Skin-to-Skin Care is Associated with Reduced Stress, Anxiety, and Salivary Cortisol and Improved Attachment for Mothers of Infants With Critical Congenital Heart Disease

Skin-to-skin care supported maternal attachment and reduced the stress response in mothers of infants before and after neonatal cardiac surgery.

*Amy J. Lisanti, Abigail C. Demianczyk, Andrew Costarino, Maria G. Vogiatzi, Rebecca Hoffman, Ryan Quinn, Jesse L. Chittams, and Barbara Medoff-Cooper*

### 55 Modified Delphi Study on Nursing Practice and Science in Fetal Care

Nurses and their multidisciplinary colleagues agreed that an expert fetal care nursing team is necessary during fetal diagnosis and treatment.

*Abigail Wilpers, Mert Ozan Bahtiyar, Diane Wall, Kathie Kobler, Lois S. Sadler, Jane K. Dixon, and Holly Powell Kennedy*

### 68 Influence of Quiet Time on the Auditory Environment of Infants in the NICU

Results support the implementation of quiet time to increase silence and reduce exposure to electronic sounds for infants in the NICU.

*Lauren Head Zauche, Michael S. Zauche, and Bryan L. Williams*

### 78 Effect of Thickening on Flow Rates Through Bottle Nipples

Thickening affects flow rates from bottle nipples and our data support evidence-based selection of nipples.

*Britt Frisk Pados and Megan Mellon*

## EXPERT OPINION

### 88 National Partnership for Maternal Safety: Consensus Bundle on Support After a Severe Maternal Event

This bundle is designed to meet the needs of women, families, and clinicians after severe maternal events and can be integrated into other maternal safety bundles.

*Christine H. Morton, Michelle Flaum Hall, Sarah J. M. Shaefer, Deborah Karsnitz, Stephen D. Pratt, Miranda Klassen, Kisha Semenuk, and Cynthia Chazotte*

## SPECIAL REPORT

### 102 Current Resources for Evidence-Based Practice, January 2021

A review of new resources to support the provision of evidence-based care for women and infants.

*Marit L. Bovbjerg, Sabrina Pillai, and Melissa Cheyney*

## AWHONN POSITION STATEMENT

### 116 Infertility Treatment and Fertility Preservation
