EDITORIAL

103 Burnout Among Nurses and Midwives Is a Threat to Maternal and Newborn Health

What began as a call to duty for American health care professionals to respond to a global emergency has resulted in a parallel pandemic of burnout.

Joyce K. Edmonds

REVIEWS

106 Scoping Review of Education for Women About Return to Driving After Abdominal Surgery

Education given to women about return to driving after abdominal surgery varies and has a weak evidence base.

Oyinda Obigbesan, K. Alix Hayden, and Karen M. Benzies

117 Scoping Review of Racial and Ethnic Representation of Participants in Mental Health Research Conducted in the Perinatal Period During the COVID-19 Pandemic

The authors review the racial and ethnic diversity of women who participated in perinatal mental health research studies conducted during the pandemic.

Deepika Goyal, Justine Dol, Madeline Leckey, Sarah Naraine, Cindy-Lee Dennis, Emily K. Chan, and Geetali Basu

128 Integrative Review of Cobedding of Infant Twins

Although the authors of the included articles reported no evidence of harm, high-quality evidence is insufficient to inform practice.

Philippa Mann, Virginia Schmied, Kim Psaila, and Jann Foster

RESEARCH

139 Linking Electronic Health Records With Wearable Technology From the *All of Us* Research Program

Longitudinal patterns in heart rate data from wearable devices can be used to study maternal cardiovascular adaptation to pregnancy.

Crystal Modde Epstein and Thomas P. McCoy

METHODS

150 Psychometric Properties of the Prenatal Opioid Use Perceived Stigma Scale and Its Use in Prenatal Care

The newly developed Prenatal Opioid Use Perceived Stigma scale demonstrated good psychometric properties and can be used to assess a potential barrier to prenatal care.

Carla M. Bann, Jamie E. Newman, Katherine C. Okoniewski, Leslie Clarke, Deanne Wilson-Costello, Stephanie Merhar, Nicole Mack, Sara DeMauro, Scott Lorch, Namasivayam Ambalavanan, Catherine Limperopoulos, Brenda Poindexter, Michele Walsh, and Jonathan M. Davis

SPECIAL REPORT

159 Current Evidence to Guide Practice, Policy, and Research: COVID-19 Vaccination During Pregnancy

The author provides current evidence on the recent proposal to extend Medicaid coverage in the postpartum period.

Summer Sherburne Hawkins
