Features

34 Depression Among Adolescent Mothers Enrolled in a High School Parenting Program

What's the difference between normal adaptation to motherhood and postpartum depression? Find out what the Beck Depression Inventory®-II can offer for your teen clients.

*Mikki Meadows-Oliver, PhD, MPH, RN; and
Lois S. Sadler, PhD, RN, PNP-BC, FAAN*

42 An Integrated Dementia Intervention for Korean Older Adults

Study participants realized improvements in 3 key areas after an 18-session intervention combining cognitive stimulation with music, art, and horticultural therapies.

*Hee-Young Kang, RN, PhD; Yeong-Suk Bae, RN, PhD;
Eun-Hee Kim, RN, PhD; Kap-Soon Lee, RN, PhD;
Myeong-Jeong Chae, RN; and Ree-Aie Ju, RN*

51 Assessment for and Response to Adverse Childhood Experiences

Not all clients who experienced childhood abuse reveal this later to their mental health provider. Learn how to unlock these traumatic experiences in a sensitive and ethical manner.

*Roberta Waite, EdD, APRN, CNS-BC; Patricia Gerrity, PhD, RN, FAAN;
and Roxana Arango*

Sections

13 Psychopharmacology

Use of Endocrine Hormones for Treating Depression
Educate yourself about adrenal, thyroid, and gonadal hormones; their effects on the central nervous system; and their use with conventional antidepressant agents.

Robert H. Howland, MD

22 Youth in Mind

Promoting Adherence to Psychotropic Medication for Youth—Part 2

Communication, contracts, and calendars are just a few real-life strategies for keeping kids on their meds.

*Julie Worley, MS, APN, FNP-BC, PMHNP-BC; and
Teena M. McGuinness, PhD, CRNP, FAAN*
