Original Articles

- 22** **Relational Agents as an Adjunct in
Schizophrenia Treatment**
Two examples show how a computerized virtual health
counselor named "Laura" can assist patients with
medication adherence and knowledge regarding the
symptoms and side effects of schizophrenia.

Timothy Bickmore, and Susan Sereika*
- 30** **Depression in End-Stage Renal Disease**
Patients with ESRD face multiple psychosocial stressors
and often develop depression. Coordinated care across
medical and psychiatric disciplines is essential for safe
and effective treatment.
Margaret Fallon
- 35** **The Future of (Psychiatric) Nursing**
The Institute of Medicine's recent report describes a
number of problems in nursing practice, education,
and leadership—but these problems are not new.
