Original Articles

22 Use of a Sensory Room on an Intensive Care Unit

Both patients and staff found the use of a sensory room to be a positive experience, as it provided refuge and enhanced peer support during periods of agitation and distress.

Suzanne Smith and Julia Jones

32 Characteristics of Temper Tantrums in Preschoolers with Disruptive Behavior in a Clinical Setting

Knowing a child's tantrum precipitants can help clinicians and parents develop effective strategies for management of these disruptive behaviors.

*Shelly S. Eisbach, Fallon Cluxton-Keller, Joyce Harrison,
Jenna R. Krall, Matthew Hayat, and Deborah Gross*

41 Near-Hanging and its Management in the Acute Inpatient Mental Health Setting

Survival rates can be high when patients receive emergency care and treatment after attempted hanging. Read about strategies and clinical simulations that can be used to prepare for this crisis event.

Luke Molloy, Marie Brady, Paul Beckett, and Joy Pertile
