## Pharmacology Focus

- 9 Product Update
- 11 Clip & Save: Drug Chart Hypertension
- 13 Gabapentin for Substance Use Disorders: Is it Safe and Appropriate?  
*Robert H. Howland*

## Original Articles

- 22 **The Effects of Cognitive-Behavioral Therapy on Depression, Anger, and Self-Control for Korean Soldiers**  
Military service is mandatory for Korean men, so such modalities are crucial to optimize soldiers' mental health.  
*Myung-Sun Hyun, Hyang-In C. Chung, Jennie C. De Gagne, and Hee Sun Kang*
- 30 **A Proactive Classroom Management Model to Enhance Self-Efficacy Levels in Teachers of Adolescents Who Display Disruptive Behaviors**  
Use of proactive classroom strategies by teachers may lower incidents of students being removed from the classroom for behavioral infractions.  
*Rolanda T. Pace, Anita D. Boykins, and Sheila P. Davis*
- 38 **Factors That Affect Decisions to Receive (or Not Receive) Life-Sustaining Treatment in Advance Care Planning**  
Decisions to receive life-sustaining treatment are complex; knowing how to facilitate this process requires nurses to be familiar with the patient's values and goals.  
*Jane R. Schubart, Benjamin H. Levi, Cheryl Dellasega, Megan Whitehead, and Michael J. Green*
