EDITORIAL

459 Structured Dance as a Healing Modality for Women

The Associate Editor of *JOGNN* describes the benefits of complementary medicine modalities, particularly structured dance.

Marilyn Stringer

EXPERT OPINION

462 National Partnership for Maternal Safety: Consensus Bundle on Obstetric Hemorrhage

The authors present a consensus, multidisciplinary, national safety bundle for obstetric hemorrhage that includes critical clinical practices designed to reduce maternal morbidity and mortality.

Elliott K. Main, Dena Goffman, Barbara M. Scavone, Lisa Kane Low, Debra Bingham, Patricia L. Fontaine, Jed B. Gorlin, David C. Lagrew, and Barbara S. Levy

REVIEW

471 Metaethnographic Synthesis of Fathers' Experiences of the Neonatal Intensive Care Unit Environment During Hospitalization of Their Premature Infants

In order to enhance the experiences of fathers, staff in the NICU can facilitate interaction between fathers and their infants through encouragement and reassurance.

Helen Sisson, Catriona Jones, Rhona Williams, and Lisa Lochamudis

PRINCIPLES AND PRACTICE

481 Development of a Neonatal End-of-Life Care Education Program for NICU Nurses in Japan

This end of life care education program for NICU nurses in Japan focused on ethical decision making, care of dying neonates, bereavement, and cultural communication.

Mari Murakami, Kyoko Yokoo, Mio Ozawa, Saori Fujimoto, Yuki Funaba, and Minoru Hattori

RESEARCH

492 A Randomized Trial of a Bereavement Intervention for Pregnancy Loss

A bereavement intervention administered immediately after miscarriage promoted women's ability to cope with early pregnancy loss.

Olinda Pruitt Johnson and Rae W. Langford

500 Women's Experiences With Early Breastfeeding After Gestational Diabetes

Women with gestational diabetes expressed the need for consistent lactation advice, education, assistance, and strategies to address breastfeeding challenges and milk supply issues.

Karen P. Jagiello and Ilana R. Azulay Chertok

510 Taiwanese Women's Experiences of Lactation Suppression After Stillbirth

The authors recommend that lactation suppression be an essential component of follow-up care for women after stillbirth.

Fu-Hsuan Chen, Shu-Ling Chen, and Wen-Yu Hu

518 Effectiveness of an Obstetrics-Based Advanced Cardiac Life Support Education Program

An obstetrics-based advanced cardiac life support program improved the performance of obstetric nurses in maternal MegaCode scenarios.

Cheryl K. Roth, Sheryl Parfitt, and Melanie Brewer

SPECIAL REPORT

527 Current Resources for Evidence-Based Practice, July/August 2015

A review of new resources to support the provision of evidence-based care for women and infants.

Nicole S. Carlson
