Original Articles

22 Therapeutic Doll Play in the Treatment of
 a Severely Impaired Psychiatric Inpatient:
 Dramatic Clinical Improvements With a
 Nontraditional Nursing Intervention

A dollhouse-play activity was implemented for an acutely disturbed, middle-aged woman, resulting in significant reductions in verbal and physical aggression and use of PRN medications.

Shira Birnbaum, Hilary Hanchuk, and Marjorie Nelson

28 After the Parade: Military Nurses'
 Reintegration Experiences from the
 Iraq and Afghanistan Wars

Nurses returning from war face many challenges, both personal and professional, and sometimes must embrace a "new normal."

Mary Ellen Doherty and Elizabeth Scannell-Desch

36 Synthetic Cannabinoids: The Dangers
 of Spicing It Up

Health care providers should consider synthetic drug use when unexplained psychiatric symptoms occur.

Deborah A. Salani and Martin M. Zdanowicz
