FEATURE ARTICLES

20

To Use or Not to Use: A Literature Review of Factors that Influence Family Caregivers' Use of Support Services

Although interest in respite has grown over the past decade, caregivers are slow to request and use support services. Understand the factors that influence caregivers' choices and be ready to tailor interventions accordingly.

Merle E. Mast, PhD, RN

32

Musical Memories: Translating Evidence-Based Gerontological Nursing Into a Children's Picture Book

Read about the innovative model behind the book *Musical Memories*, which focuses on the relationship between a granddaughter and her grandmother who has Alzheimer's disease. Such resources can serve as teaching tools for children and their families.

Linda A. Gerdner, PhD, RN, FAAN; and Kathleen C. Buckwalter, PhD, RN, FAAN

42

Perceptions of Technology among Older Adults

Older adults are eager and enthusiastic when it comes to technology, especially when its usefulness and usability help maintain their independence and quality of life.

Melinda Heinz, MS; Peter Martin, PhD; Jennifer A. Margrett, PhD; Mary Yearns, PhD; Warren Franke, PhD; Hen-I Yang, PhD; Johnny Wong, PhD; and Carl K. Chang, PhD

52

Educational Strategies to Promote Professional Nursing in Long-Term Care: An Integrative Review

Various strategies that facilitate positive attitudes toward working with older adults are presented and include increased gerontological knowledge and early introduction of nursing students to people who are aging successfully.

Jodie R. Fox, MSN, RN-BC
