FEATURE ARTICLES

26

Medication Adherence among Older Adults with Schizophrenia

A collaborative and trusting relationship between patient and clinician—as well as open communication and routine education from you—can promote medication adherence in this population.

Heather C. Leutwyler, PhD, FNP-BC, CNS; Patrick J. Fox, PhD, MSW; and Margaret Wallhagen, PhD, GNP-BC, AGSF, FAAN

Exploring Attitudes and Barriers Toward the Use of Evidence-Based Nursing among Nurse Managers in Taiwanese Residential Aged Care Facilities

Evidence-based practice was met with a positive attitude among nurse managers, but its implementation and application were precluded by individual, research-related, and systemic barriers.

Hui Chen Chang, PhD, RN; Mairwen K. Jones, PhD, BA(Hons); and Cherry Russell, PhD, BA

Short of Breath and Dying: State of the Science on Opioid Agents for the Palliation of Refractory Dyspnea in Older Adults

Recent studies report the underuse of opioid agents to palliate dyspnea, particularly in older adults with advanced chronic illnesses. This article presents a proposed framework that gerontological nurses can use to ensure patients receive adequate symptom management for refractory dyspnea.
