Effects of the Evidence-Based Nursing Care Algorithm of Dysphagia for Nursing Home Residents

Implementation of an evidence-based tool contributed to a reduction in the risk of aspiration and an improvement in the quality of life in Korean nursing home residents with dysphagia.

Yeonhwan Park, PhD, RN; Seieun Oh, PhD, RN; Heekyung Chang, PhD, RN; and Hwal Lan Bang, PhD, RN

42

Understanding Elderspeak from the Perspective of Certified Nursing Assistants

Enhanced training programs are needed to address and counteract the myths regarding the perceived benefits of elderspeak and provide alternative methods for communicating with older adults.

Tracy M. Grimme, MA; Jeffrey Buchanan, PhD; and Shelby Afflerbach, MA

50

Nutrition and Cognition in Older Adults With Heart Failure: A Systematic Review

Poor nutritional habits, such as increased consumption of sugary beverages, snack foods, and dairy products, are associated with cognitive impairment, whereas intake of fruits, vegetables, and fish is associated with better attention and executive function.

Mara W. Stewart, BSN, RN; Abigail C. Traylor, BSN, RN, RD, LD; and Lisa C. Bratzke, PhD, RN, ANP-BC
