FEATURE ARTICLES

25

Patterns of New Physical Problems Emerging in Long-Term Care Residents With Dementia

Individuals in nursing homes develop many new physical problems, suggesting a higher quality of assessment skills and interventions are needed in these long-term care organizations.

Christine R. Kovach, PhD, RN, FAAN, FGSA; Julie Ellis, PhD, RN, GCNS-BC; and Crystal-Rae Evans, RN, BSN

33

Culturally Responsive Pain Management for Black Older Adults

Applying the four core concepts of cultural congruency—appreciation, accommodation, negotiation, and explanation—will help create positive, culturally appropriate care environments.

Sheria G. Robinson-Lane, PhD, RN; and Staja Q. Booker, MS, RN

42

Feasibility and Efficacy of a Shared Yoga Intervention for Sleep Disturbance in Older Adults With Osteoarthritis

Although inclusion of a support partner did not improve overall adoption or adherence to a yoga program, participants reported it was helpful for their pain and noted improvements in their sleep.

Diana Taibi Buchanan, PhD, RN; Michael V. Vitiello, PhD; and Kimberly Bennett, PhD, PT
