FEATURE ARTICLES

15 Resident-to-Resident Mistreatment: Evaluation of a Staff Training Program in the Reduction of Falls and Injuries

Frontline nursing assistant staff underwent training to anticipate and intervene appropriately in resident-to-resident elder mistreatment (R-REM) to reduce episodes of falls, resulting in greater recognition of R-REM.

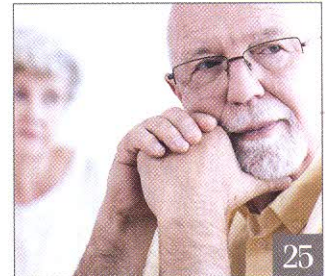

Jeanne A. Teresi, PhD, EdD; Mildred Ramírez, PhD; Terry Fulmer, PhD, RN, FAAN; Julie Ellis, PhD, RN; Stephanie Silver, MPH; Jian Kong, MS; Joseph P. Eimicke, MS; Gabriel Boratgis, MPH, LNHA; Rhoda Meador, PhD; Mark S. Lachs, MD, MPH; and Karl Pillemer, PhD

25 Psychometric Properties of the Problem Solving Inventory in Caregivers of Individuals With Memory Loss

The Problem Solving Inventory was found to be reliable and valid in assessing problem-solving capabilities among informal caregivers, with the potential to help health care providers identify individualized interventions to improve clinical outcomes.

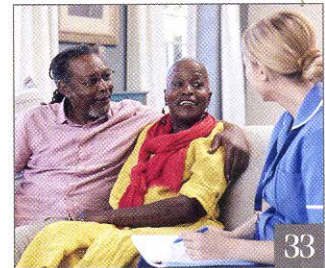

Meihua Ji, MSN, RN; Susan M. Sereika, PhD; Jeffrey M. Rohay, PhD, MSIS; and Judith A. Erlen, PhD, RN, FAAN

33 Formal Service Use by African American Individuals With Dementia and Their Caregivers: An Integrative Review

To address the overall lack of formal service use in this population, a more consistent and culturally sensitive approach is needed to improve health outcomes.

Kalisha Bonds, MSN, PMHNP-BC; and Karen S. Lyons, PhD, FGSA

41 End-of-Life Education and Discussions With Assisted Living Certified Nursing Assistants

Focusing on end-of-life education has the potential to improve quality care, promote dignity to dying residents, and allow certified nursing assistants to feel confident in their roles as caregivers.

Wendy L. Mohlman, MS, RN; Kara Dassel, PhD; Katherine P. Supiano, PhD, LCSW, FGSA, FT; and Michael Caserta, PhD, FGSA
