## FEATURE ARTICLES

### 19 Feasibility of Motivational Interviewing to Engage Older Inpatients in Fall Prevention: A Pilot Randomized Controlled Trial

Motivational interviewing during hospitalization and discharge offered a practical way to improve communication with patients about fall prevention by meeting them at their level of interest and engagement.

*Hiroko Kiyoshi-Teo, PhD, RN; Kathlynn Northup-Snyder, PhD, RN, CNS; Deborah J. Cohen, PhD; Nathan Dieckmann, PhD; Sydnee Stoyles, MBST; Elizabeth Eckstrom, MD, MPH; and Kerri Winters-Stone, PhD*

### 31 Atrial Fibrillation: Community Screening Events Improve Awareness in Older Adults

Intervention goals were met in terms of increasing participants' knowledge of atrial fibrillation (AF) symptoms and awareness of the seriousness of AF and promoting beliefs and attitudes conducive to self-monitoring and treatment-seeking.

*Pamela J. McCabe, PhD, APRN-CNS; Margaret (Peg) A. Lloyd, MD, MBA; Joyce Balls-Berry, PhD, MPE; Jaclynn Johnson, BSN; Jaimee LaScotte, BSN; and Hon-Chi Lee, PhD, MD*

### 39 Vietnamese American Dementia Caregivers' Perceptions and Experiences of a Culturally Tailored, Evidence-Based Program to Reduce Stress and Depression

Participants felt more confident and gained better skills in taking care of themselves and their loved ones with the culturally appropriate translation of materials and in-person delivery of the program.
