## Getting "hip" to hip hemiarthroplasty

By Judith A. Nagle, MSN, CNOR, FNP-BC  
A hip fracture can be a life-changing event for your patient. Here, you'll review normal joint anatomy, hip fracture types, and the goals of arthroplasty. Then take steps to prepare your patient for surgery and prevent hip dislocation and other complications afterward.

## CE CONNECTION

## Focus on central venous pressure monitoring in an acute care setting

By Patricia L. Burchell, BSN, RN, SANE-A, and Kelly A. Powers, BSN, RN  
CVP monitoring has become the standard of care for many patients in acute care settings. Refresh and update your knowledge of CVP monitoring, including recommended catheter insertion sites, best practices for patient care, and troubleshooting equipment problems.

For immediate CE test processing, see our website at <http://www.nursingcenter.com/ce/nursing>.

36 SHARING

## Too good for this world

By Robin K. Brunner, RN, CCRN  
One Christmas Eve, all my experience as a nurse and as a human being came together in support of an Amish family facing an unthinkable tragedy.

## 45 Nursing2011 survey results: Blood exposure risk during peripheral I.V. catheter insertion and removal

Sponsored by an unrestricted educational grant from BD Medical, Inc.

By Janine Jagger, PhD, MPH; Jane Perry, MA; Ginger Parker, MBA; and Elayne Kornblatt Phillips, PhD, MPH, RN  
Last spring, Nursing2011 asked nurses nationwide to take part in a survey exploring blood exposure risks associated with inserting or removing short peripheral I.V. catheters. Read these results to determine whether you and your facility are following current standards and best practices to minimize risks.

36

## 50 Beyond mainstream: Making the case for fecal bacteriotherapy

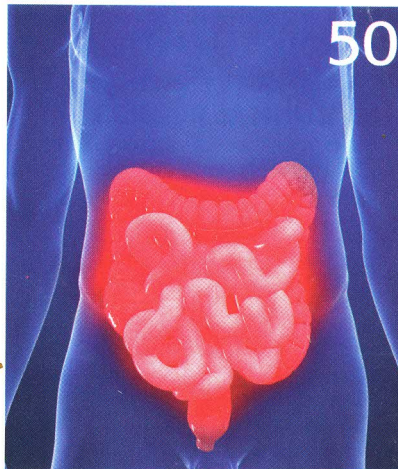

By Frank Myers, MA, CIC  
This headline-grabbing treatment for *Clostridium difficile*-associated gastrointestinal disease is gaining support among infectious disease experts. Learn why a fecal transplant can fight stubborn bacterial infections, when it's indicated, and how you should educate and support your patient.

## 54 PATIENT EDUCATION SERIES Heart attack

By Karen Jean Craig, BS, RN, EMT-P  
After reviewing signs and symptoms with your patients, offer them this handout to take home.

## 55 13 tips for surviving the 12-hour shift

By Kathryn M. Kolasa, PhD, RD, LDN, and Gina Cahoon Firnhaber, MSN, MLS, RN  
Do you find yourself skipping meals, avoiding exercise, and feeling fatigued when you work 12-hour shifts? These practical tips will help you survive and thrive.

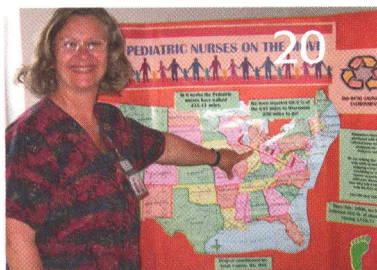

Our mission at **Nursing2011** is to improve nursing practice by providing evidence-based practical information with a reader-friendly approach.
