features

26 Post-polio syndrome: Unraveling the mystery

By Susan A. LaRocco, PhD, MBA, RN
Polio survivors can experience symptoms again long after their recovery. Review the basics of this disabling disorder so you'll be prepared to educate and support affected patients.

CE CONNECTION

For immediate CE test processing, see our website at <http://www.nursingcenter.com/ce/nursing>.

31 PATIENT EDUCATION SERIES Preventing falls

Offer this handout when you educate patients about how to avoid dangerous missteps.

44 SHARING A race to the end

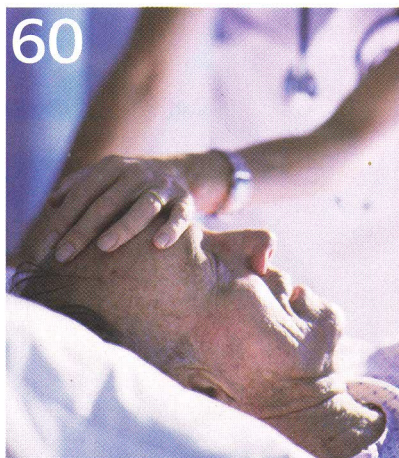

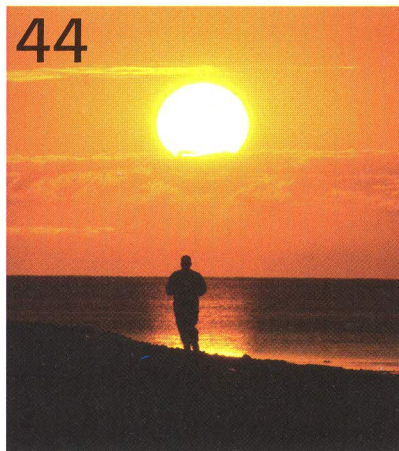

By Ashley L. Carunchio, BSN, RN, CEN, NREMT-P
My young, seemingly healthy patient died despite our best efforts. Had anything I'd done made a difference?

46 PROFESSIONAL GROWTH Relationship-based care

By Cheryl R. Ledesma, BSN, RN
Taking time to care for yourself and your colleagues is fundamental to taking care of patients.

50 Puzzling out disclosure programs

By Jane A. Hurst, RN, CLNC
Disclosing errors to patients is not only the right thing to do, but it can also head off lawsuits and improve patient safety. Read this article to explore the issues involved in reporting errors.

32 New drugs 2011, part 1

By Daniel A. Hussar, PhD
What you need to know about 13 recently marketed drugs, including new treatments for diabetes, primary hyperlipidemia, and osteoporosis.

55 Vincent and Ludwig angina: Two damaging oral infections

By Dorothy S. Carlson, DEd, RN, and Ellen Pfadt, PhD(c), RN
Be prepared to intervene if your patient has one of these painful, potentially serious disorders.

60 ISSUES IN NURSING Your final assessment: Determination of death

By Susan Heidenwolf Weaver, MSN, RN, CRNI, NEA-BC
Under certain circumstances, many states allow nurses to pronounce death in most settings, including hospitals. Discover why nurses are a natural fit for this role.

7 Nursing2011 salary and benefits survey

Respond online, by mail, or by fax so we can assess nursing salaries and benefits nationwide.
