### EDITORIAL & UPDATES

#### FROM THE EDITOR

- 321 The Evolution of Language  
Mary C. Brucker
- 322 Erratum

#### RESEARCH & PRACTICE BRIEFS

- 323 Cardiovascular Health and Pregnancy Complications  
Jennifer P. Hellwig

### CLINICAL EVALUATION & IMPROVEMENT

- 329 AWHONN Members' Recommendations on What to Include in Updated Standards for Professional Registered Nurse Staffing for Perinatal Units  
*In a survey, nurses offered detailed feedback that helped inform updates to AWHONN's Standards for Professional Registered Nurse Staffing for Perinatal Units.*  
Kathleen Rice Simpson, Cheryl K. Roth, Sandra L. Hering, Gay L. Landstrom, Audrey Lyndon, Janice M. Tinsley, Julie Zimmerman & Catherine M. Hill
- 337 A Statewide Evaluation of the Breastfeeding Resource Nurse Model  
*Educational training was associated with increased knowledge and motivation among nurses to improve breastfeeding support practices in the NICU; however, limited institutional support and resources were seen as barriers to widespread practice change.*  
Stephanie L. Marhefka, Taylor A. Livingston, Elizabeth Lockhart, Ivonne Hernandez, Diane L. Spatz & Adetola F. Louis-Jacques
- 346 Women's Use of Self-Care Interventions for Endometriosis Pain in the United States  
*Women with endometriosis report heat, rest, and dietary changes to be the most effective self-care interventions for relieving endometriosis-related pain.*  
Madeline Norman, Omid Razmpour & Jeanette M. Olsen

### REVIEWS

- 357 Improving Pain Management After Cesarean Birth Using Transversus Abdominis Plane Block With Liposomal Bupivacaine as Part of a Multimodal Regimen  
*TAP block with liposomal bupivacaine can reduce pain and the need for opioids after cesarean birth.*  
Lea Villadiego & B. Wycke Baker
- 366 Nurses' Descriptions of Interactions When Caring for Women With Perinatal Substance Use Disorders and Their Infants  
*Nursing care is enhanced by managing stigma, increasing knowledge of the science behind addiction, and supporting best practices when caring for women with perinatal substance use disorders and their infants.*  
Kalyn M. Renbarger, Barbara Phelps, Juanita Brand & Allyson Broadstreet
- 377 Manual Lymphedema Drainage for Reducing Risk for and Managing Breast Cancer-Related Lymphedema After Breast Surgery: A Systematic Review  
*Based on the results of this systematic review, it cannot be concluded that manual lymphatic drainage reduces the risk of breast cancer-related lymphedema for women after breast surgery.*  
Ausanee Wanchai & Jane M. Armer

### IN PRACTICE

- 384 Care of Pregnant Women With a History of Bariatric Surgery  
**CNE**  
*A healthy and safe pregnancy after bariatric surgery requires multidisciplinary collaboration, with a focus on healthful dietary practices that lessen the effect of nutrient deficiencies and nutrition-related pregnancy complications.*  
Nakeisha S. Lindsay & Esther R. Ellsworth Bowers
- 395 Innovative Strategies to Facilitate Safe Assessment and Intervention for Intimate Partner Violence During a Pandemic and Beyond  
*During the COVID-19 pandemic, creative strategies are needed to assess and intervene for intimate partner violence while adhering to policies to mitigate exposure to COVID-19.*  
Janet Carey Guarino
