EQUITABLE POSTPARTUM BREASTFEEDING SUPPORT

EDITORIAL & UPDATES

FROM THE EDITOR

- 165 **Coming Together and Moving Forward**
The AWHONN convention can help inspire and revitalize nurses as they move forward in their careers and develop their own scholarship.
Heidi Collins Fantasia

RESEARCH & PRACTICE BRIEFS

- 167 **Treating Chronic Hypertension in Early Pregnancy**
Jennifer P. Hellwig

COMMENTARY

- 174 **The Underrecognized Conditions of Hypermobile Ehlers–Danlos Syndrome and Hypermobility Spectrum Disorders in Women**
When nurses and other health care providers are knowledgeable about hypermobile Ehlers–Danlos syndrome and hypermobility spectrum disorders, individuals may experience reduced time to diagnosis and reduced risk for chronic morbidity.
Kendall Robbins

CLINICAL EVALUATION & IMPROVEMENT

- 184 **Providing Equitable Postpartum Breastfeeding Support at an Urban Academic Hospital**
Intentionally equitable implementation of the Baby-Friendly breastfeeding guidance may decrease racial disparities in breastfeeding in the early postpartum period; however, preparation to exclusively breastfeed should begin prenatally.
Julie Knutson & Judith Butler
- 194 **Implementing a Statewide Speakers Bureau to Address Maternal Morbidity and Mortality**
Implementation of speakers bureaus in health care facilities has the potential to impact practice change, increase knowledge, improve knowledge retention, and contribute to lower rates of maternal morbidity and mortality.
Emily Stephenson, Katherine Newnam, Brenda Barker & Tracy Brewer

- 205 **Concerns of Prelicensure Nursing Students Before a Maternal–Newborn Clinical Rotation**

Nursing students have concerns about the maternal–newborn clinical rotation that can be addressed by faculty, clinical instructors, and staff nurses to improve the clinical learning experience.

Jennifer B. Rousseau & Ramona G. Hunter

- 215 **Lessons Learned From the Implementation of an Integrated Prenatal Opioid Use Disorder Program**

CNE

Sustained community partnerships can support integrated prenatal and opioid use disorder care.

Casey Anderson, Alexis Braverman, Phillip Maes & Virginia Reising

- 226 **Virtual Peer Support in Women's Health for Pregnant People and Mothers With Substance Use Disorder**

Women's health units are an appropriate location for implementing the evidence-based treatment modality of virtual peer support groups for individuals with substance use disorder.

Susan M. Newell, Jack Stem & Jennifer Lanzillotta-Rangeley

REVIEW

- 234 **Literature Review of Mothers Diagnosed With COVID-19 and the Impact on Breastfeeding Their Newborns**

As frontline health care providers, nurses are instrumental in offering support and education on the risks and benefits of breastfeeding for individuals diagnosed with COVID-19.

Stacey A. Warner & Jessica L. Arevalo

IN PRACTICE

- 242 **Combined Oral Contraceptive Use and Breast Cancer Risk: Select Considerations for Clinicians**

When assessing potential breast cancer risk with regard to oral contraceptive use, several factors should be considered, including hormone type, an individual's age, and the duration of contraceptive use.

Karly Smrekar & Nicole M. Lodise

Continued

REFLECTIONS

251 Adoption, Infertility, and Love Affirmed

A nurse describes the emotional journey of getting pregnant and giving birth after the experiences of adoption and infertility.

Michele K. Savin

CLINICAL EVALUATION & IMPROVEMENT

e1 Birth, Postpartum, and Home Experiences of Individuals With Lower Extremity Nerve Injury

Care providers must promptly identify LENI symptoms and proactively intervene to prevent falls; address emotional distress/depression; and provide resources, referrals, and accurate information.

Martha Rider Sleutel, Patricia Newcomb, Ericka Valdez, Daniela Coates & Regina Wilder Urban

AWHONN POSITION STATEMENT

e12 Perinatal Mood and Anxiety Disorders
