EDITORIAL & UPDATES

FROM THE EDITOR

391 Top Issues for Maternal/Child and Women's and Gender-Related Health

Nurses must consider the complex and intersecting issues that affect the health of individuals and work toward a collective goal of health equality.

Heidi Collins Fantasia

RESEARCH & PRACTICE BRIEFS

394 Mistreatment During Maternity Care

Jennifer P. Hellwig

COMMENTARY

400 Fertility Planning Is More Critical Now Than Ever

There is an increasing need for nurses' involvement in fertility planning to improve maternal and fetal outcomes.

Sophie C. Wood & Eleanor L. Stevenson

CLINICAL EVALUATION & IMPROVEMENT

407 Modified Early Obstetric Warning Criteria Predict Maternal Morbidity in the Immediate Postpartum Period: A Case-Control Study

In this case-control study, women with Modified Early Obstetric Warning Criteria during the immediate postpartum period were much more likely to experience subsequent maternal morbidity than women without the criteria.

Pridsadaporn Polprasarn & Thirawan Thongwon

REVIEWS

416 An Integrative Review of Breastfeeding and Homelessness

The homeless population has lower rates of breastfeeding, which may increase with community and clinical support.

Hannah Dario & Diane L. Spatz

427 An Integrative Review of Extended Use of Intrauterine Devices

Current evidence supports the safety and efficacy of the extended duration of IUD use among women.

Carmen V. Harrison, Cecilia Igwe-Kalu & Lauren Eide

435 A Systematic Review of Women's Experiences of Interpersonal Violence During the COVID-19 Pandemic

Women experienced increased violence during the COVID-19 pandemic; therefore, easily accessible community resources and services for those who experience interpersonal violence are crucial.

Dancy Joji Eapen, Rebecca Birch Tsusaki, Daisy G. Mullassery, Christen Goolsby, Keya Lee & Diane Wind Wardell

IN PRACTICE

448 What More Can We Do to Prevent Infants From Dying While They Sleep?

CNE *By being aware of current evidence-based recommendations, nurses can aid in the prevention of sudden unexpected infant death.*

Sharon C. Hitchcock

457 Supporting the Young Adulthood Transitions in Women With Migraine

Women's health nurses can support women with migraine during young adult transitions by facilitating disability accommodations, educating on treatment options, and providing counseling on a healthy lifestyle.

Brenna L. Morse & Victoria Karian

REFLECTIONS

467 "You Allowed My Body To Do What It Needed": Supporting Birthing Persons Through Conscious Empowerment

A midwife's chance encounter with a former client demonstrates the importance of supporting birthing persons through conscious empowerment.

Jenna A. LoGiudice

469 An Angel Called Grace

Bearing witness to a birthing family's immeasurable love for their daughter is an experience this nurse will never forget.

Mary Katherine Crowell
